

PowerUp with Power Platform: 1-Hr MVP Briefing

Customers need unbiased information, and we have it

Our two Microsoft Business Applications MVP principals offer an exclusive MVP Briefing—a unique way to connect with top experts. MVPs are committed to giving back to the community, and this briefing is one of the ways they fulfill their ongoing commitment.

The best part? This briefing is *completely free* and carries *no obligation* to engage our services afterward. These sessions are *not* sales pitches; they are strictly focused on sharing insights and expertise.

Our MVPs provide these one-hour sessions to individual organizations up to twice a month, allowing for a maximum of 10 attendees per session. Plus, you'll receive a recording of the briefing to reference later.

This is your chance to engage with elite Microsoft Business Applications experts in an AMA (Ask Me Anything) format—*all at no cost*.

This informational briefing is for Line of business owners or decision makers; it is not tutoring for users or a sales call.
