FORESCOUT®

CYBER RISK & COMPLIANCE

Proactively enforce, remediate, and mitigate all connected assets with comprehensive risk and exposure management

Cyber Risk & Compliance delivers comprehensive asset intelligence as the foundation for understanding the security posture of your attack surface with the power to proactively enforce and remediate compliance on every connected asset.

KEY BENEFITS:

▶ Secure and comprehensive visibility, insight, and assessment into all connected devices, ensuring that they can be monitored, managed, and controlled in compliance with internal policies, external standards, and industry regulations.

▶ Automation of device compliance procedures and policy enforcement, streamlining security management.

▶ Rapid configurable response to security incidents helping to minimize potential damage and downtime.

▶ Seamless integration with existing security infrastructure and network workflows to enhance operational efficiency and investments while improving interoperability and strengthening security measures.

▶ Risk-based prioritization and mitigation enforcement for enhanced network protection.

▶ Flexible deployment options.

▶ Premium Support optimizes the solution with technical help, upgrade services, regular health checks, configuration and policy tuning, E-Learning, and more for continuous platform enhancement.

USE CASES:

▸ **ASSET DISCOVERY & CLASSIFICATION OF MANAGED AND UNMANAGED ASSETS**

▸ **AUTOMATED COMPLIANCE ASSESSMENT**

▸ **ASSET REMEDIATION**

▸ **RISK MITIGATION & PRIORITIZATION**

▸ **ATTACK SURFACE MANAGEMENT**

▸ **EXPOSURE MANAGEMENT**

▸ **MODERN NETWORK ACCESS CONTROL**

▸ **SECURITY ORCHESTRATION**

▸ **THREAT CONTAINMENT**

▸ **ZERO TRUST ENFORCEMENT (POLICY BASED CONTROLS)**

CYBER RISK & COMPLIANCE INCLUDES:

Products / Services	Included
eyeSight – Asset discovery, classification, and assessment	✔
eyeControl – Modern network access control	✔
eyeRecover – Service continuity and resiliency	✔
eyeExtend Connect – Create and deploy eyeExtend applications	✔
eyeExtend module of choice	One module
Forescout Risk and Exposure Management - Identify, quantify and prioritize risk and compliance	✔
Premium Support – Ongoing optimization and health maintenance services	✔
Gold or Diamond Support – proactively drive advanced solution optimization	Elective add-on
Adoption Services - Onboard and maximize solution adoption and ROI	Elective add-on
Threat Detection & Response – SOC productivity and efficiency	Elective add-on
