Structure your Microsoft 365 Groups with a variety of governance controls for 360 degree control.

Address Compliance Risks Head On:

Protecting information—wherever it goes—is critical to ensuring trust and meeting compliance requirements. But first, you need to know what data you have, where it is, how it's being used, and compliance risks that may exist.

Forsyte's compliance and data risk management team gives you the insights you need to better discover, protect, and govern your data.
