

Online Course on AI with Copilot

IN COLLABORATION WITH MICROSOFT

founderz

Hello, future

The Copilot Revolution is here, and the best part is: **this is just the beginning.** Copilot is the clearest example of how AI has arrived to be a tool that helps us, but does not diminish our importance. It allows us to focus on the skills that make us more human, the ones that make us shine.

Get ready and learn how to use Copilot to **triple the efficiency of all your daily tasks**, with this online course certified by Founderz in collaboration with Microsoft.

"This new generation of AI will eliminate the monotony of work and unleash creativity."

Satya Nadella Microsoft's CEO

/ B E U N S T O P P A B L E /

Online Course on AI with Copilot

100% online

Learn from anywhere via 5 to 15-minute videos with leading industry professors

Hands-on learning

Learn how to make the most of Copilot with demos and hands-on examples

Final Certification

Endorsed by Founderz in collaboration with Microsoft

No prior knowledge

Access professional training, without prior knowledge in AI or programming

+5.000 students

Already learning AI with us, from more than 20 countries

18 months

Unlimited access to all program content for 18 months from enrollment

What you will achieve in this course

Leverage the integration of Artificial Intelligence in Windows 11 and Microsoft 365 applications you use daily: **Word, PowerPoint, Excel, Outlook, Teams, and more.**

Speed up your productivity x3 and maximize performance at your job. Do more, with much less.

Master AI skills to **eliminate the most monotonous tasks** and unleash your creativity.

Become the profile that companies already need, with a corporate approach on how to apply AI boundless possibilities in the business world.

POWERING UNSTOPPABLE HUMANS

Founderz Learning Ecosystem

Collective Intelligence powered by AI in every step of the way

Learning platform

- Video micro-lessons
- Learning gems
- Hands-on activities
- Gamification

Metaverse campus

- Live events
- Masterclasses
- Talks and debates
- Networking

Collaborative learning experience

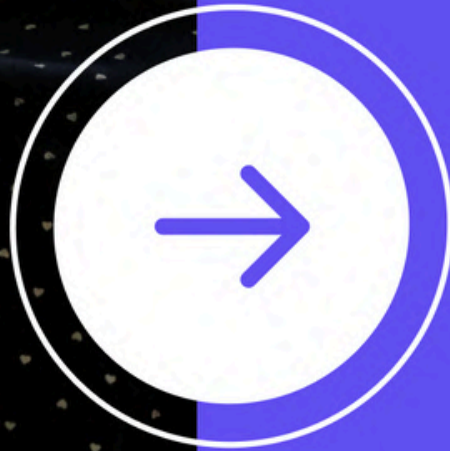

Discord Community

- Trends
- News
- Community building

“Z” Virtual Peer

- Powered by AI (GPT-4)
- Data analytics for a personalized learning experience

Syllabus

Phase I: Embracing the Future with Copilot

Module 1 - The Dawn of a New Era of Work

Module 2 - Unlock Your Potential with Copilot

Phase II: Mastering Copilot

Module 3 - Navigating Copilot

Module 4 - Expanding your Capabilities with Copilot

Phase I: Embracing the Future with Copilot

Module 1

The Dawn of a New Era of Work

- 1. Transforming the workplace.** Presenting the main changes that the socioeconomic context, the pandemic, technology, and Generative AI have brought to the world of work, discussing task automation, the shift towards remote work and its impact on employee engagement.
- 2. Road to Revolution: The Journey to Copilot.** This will cover the application of Generative AI in the workspace, leading up to the development of Copilot, inspiring learners about the potential of AI in their own work.
- 3. Responsible AI.** We will discuss the importance of responsible application of Artificial Intelligence and data protection in the age of AI, emphasizing the significance of safeguarding sensitive information and the measures we will need to take.

Module 2

Unlock Your Potential with Copilot

- 1. Getting ready for Copilot.** An engaging introduction to Microsoft Copilot. This will involve a basic showcase of Copilot's features and capabilities in a non-technical manner. This section will also explain how organizations should equip themselves with the right tools and licensing to embrace Copilot at its full potential.
- 2. How Copilot Will Transform Productivity (Personal Use cases).** We will demonstrate how Copilot can be our best ally in various areas. From streamlining administrative tasks to enhancing collaboration on projects and promoting self-learning; thus allowing us to maximize creativity, productivity, and personal growth.
- 3. How Copilot will transform organizations (Industry Use Cases).** Through real-world business cases, we will show how AI is driving change within organizations, increasing their workload, and opening doors previously thought unimaginable.

Module 4

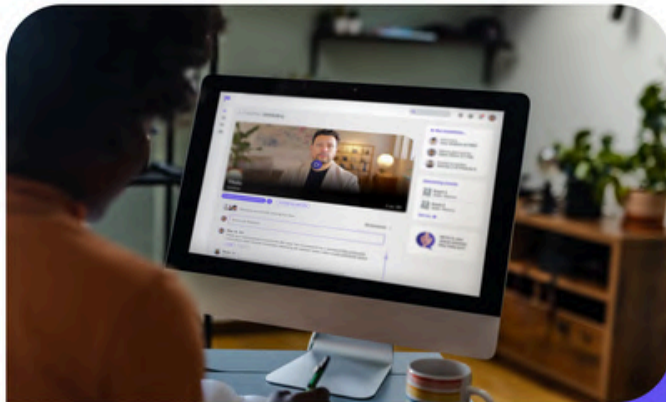

Expanding your Capabilities with Copilot

1. **Advanced Usage of Copilot.** Demo on going beyond the basics, including translating documents, connecting to CRM systems, and more.
2. **Envisioning Impact: The Potential of Microsoft Copilot.** Encouraging learners to apply the lessons learned in their own work, including practical applications of Copilot across various job roles and sectors, showcasing real-world examples and case studies.

Our **DSL**A methodology

The DSLA (Discover, Share, Learn, Achieve) methodology forms the core of our innovative educational experience, fostering collaboration and growth through collective intelligence

Discover

Learn from industry experts via concise, up-to-date video lessons across various skill levels

Share

Complete module activities and present your work to the community, promoting shared learning and feedback exchange

Learn

Benefit from instructors, additional materials, our AI companion and the community's collective intelligence for deeper understanding and personal growth

Achieve

Reach your goals, earn expert certification, and continue learning as part of our community

Become part of our community of unstoppable humans

Being a Founderz student is not a title, it's an attitude. The attitude of those who don't run away from new challenges.

Those who adapt, evolve, learn.

Those who become unstoppable humans.

More than 5.000 students
and 200 businesses
learning AI with us!

Final Certification

endorsed by Founderz

in collaboration with Microsoft

- ✔ Completing all the modules of the program
- ✔ Submitting the activities
- ✔ Participating in the community
- ✔ Attending online events

AI with Copilot

founderz IN COLLABORATION WITH MICROSOFT

- Master Copilot and speed up your productivity x3.
- Get certified with Founderz in collaboration with Microsoft.
- Learn at your own pace and without schedules, with our micro-learning format.
- Be part of a large community of professionals, with whom you can network and attend online events.
