

# ADVANCED HRM

## Support Your Entire Employee Lifecycle

### Make End-to-End HR Accessible

Advanced HRM is a comprehensive platform for seamless End-to-End HR management, handling every stage of the employee lifecycle from hire to retire. With integration into familiar digital workspaces like Microsoft Teams and Outlook, it ensures a smooth and efficient workflow within your team's daily tools.

### Interconnected HR-Functionality

All Advanced HRM modules are seamlessly integrated, ensuring a unified experience across functionality, data, and user interaction. By connecting HR activities, it enhances usability, improves efficiency, and minimizes manual tasks, enabling HR personnel to focus on more strategic and high-value responsibilities.

## Meet the needs of your business

 <b>Recruitment</b>	 <b>Boarding</b>	 <b>HR Request</b>
 <b>Organization Management</b>	 <b>Document Management</b>	 <b>Performance Management</b>
 <b>Succession Planning</b>	 <b>Merit Increase</b>	 <b>Time &amp; Attendance</b>

## Connect seamlessly to D365 Finance & SCM

Advanced HRM seamlessly integrates with Microsoft Dynamics 365 F&SCM HR, ensuring synchronized personnel records and automated HR data management. This integration significantly enhances HR functionality for F&O customers, improving efficiency, reducing manual tasks, and streamlining workforce management.
