UNLOCK MICROSOFT SENTINEL ACCELERATOR PROGRAM

FPT Software | Microsoft

Accelerate value and security outcomes

Organizations are increasingly seeking ways to enhance their security posture, and Microsoft Sentinel offers robust capabilities for security, compliance, and analytics to improve visibility, investigation, and response. However, maximizing its value requires careful consideration of several key factors:

1. *Do you fully understand the capabilities and potential of Microsoft Sentinel?*
2. *Are you optimizing your Sentinel investment to manage costs effectively while maximizing ROI?*
3. *How can you best integrate Microsoft Sentinel with your existing security tools?*
4. *Are there redundancies in your security architecture that can be streamlined?*
5. *How can you reduce alert fatigue and prioritize the alerts that matter most?*
6. *Do you have strategies to leverage Microsoft Sentinel to achieve rapid, actionable security outcomes?*
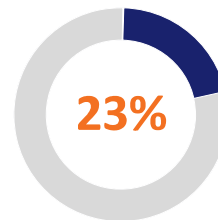

41% **Lack of skilled/trained staff to effectively operate**
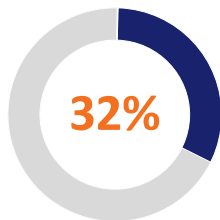

32%
System complexity
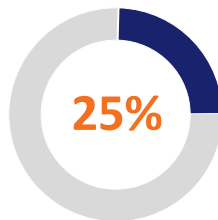

25%
Poor integration/ interoperability between security solutions

23%
Having to manually create/refine rules

Our solutions for business needs

Microsoft Sentinel Accelerator

Strategic and hands on services that incorporate onboarding and deployment of Microsoft Sentinel.
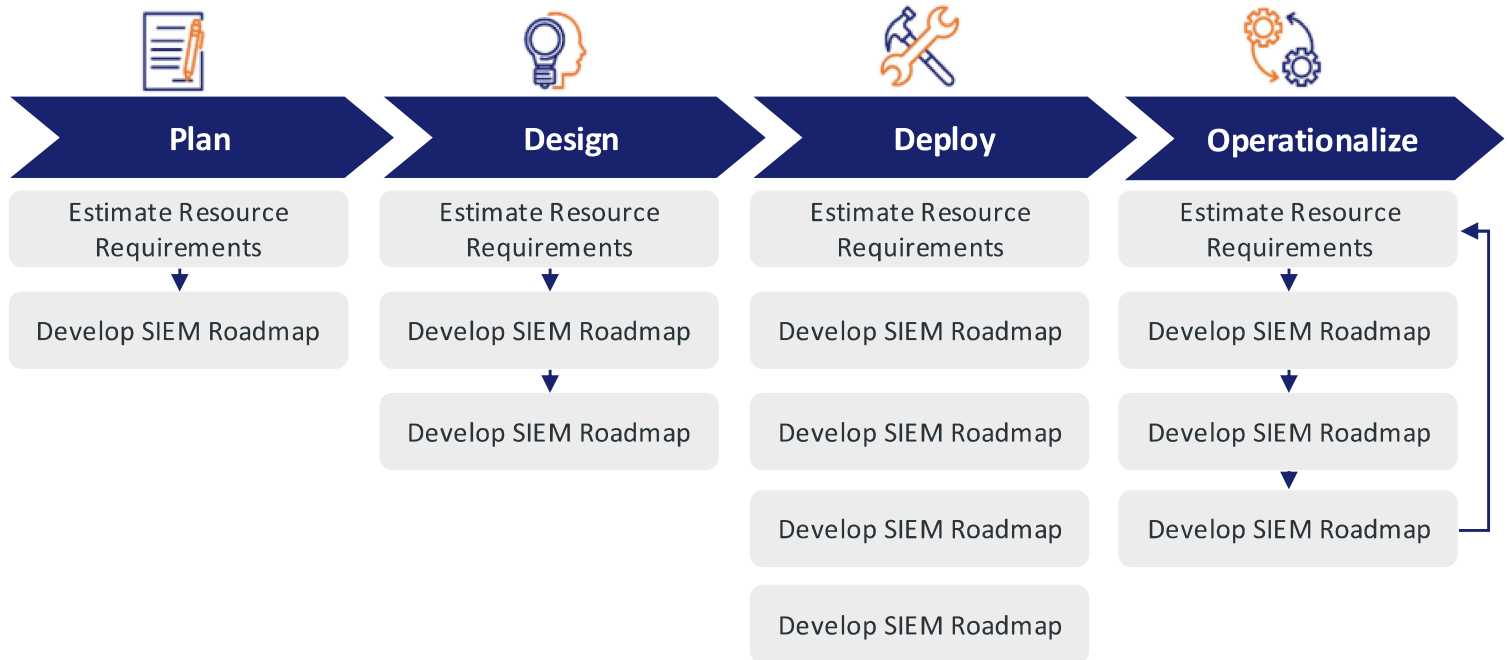

The service comprises a thorough risk assessment, guidance on how to leverage Microsoft security products, deployment and configuration best practice to fulfill client needs.

Delivered by Microsoft certified experts and Microsoft Hackathon Winners, FPT helps customer to implement a quick - win approach to minimize onboarding time and maximize client investment.

UNLOCK MICROSOFT SENTINEL ACCELERATOR PROGRAM

Our unique framework

Our framework provides a logical structure for planning, architecting and deploying Microsoft Sentinel by leveraging the "output-driven" approach. The framework includes the following stages:

Plan	Design	Deploy	Operationalize
Estimate Resource Requirements	Estimate Resource Requirements	Estimate Resource Requirements	Estimate Resource Requirements
Develop SIEM Roadmap	Develop SIEM Roadmap	Develop SIEM Roadmap	Develop SIEM Roadmap
	Develop SIEM Roadmap	Develop SIEM Roadmap	Develop SIEM Roadmap
		Develop SIEM Roadmap	Develop SIEM Roadmap
		Develop SIEM Roadmap	

Benefits

- Leverage FPT Software's team of expert Microsoft consultants to enhance your security strategy.

- Gain improved visibility, investigation, and response capabilities for faster, more effective threat management.

- Optimize integration between Microsoft Security products and third-party technologies to maximize efficiency.

- Eliminate redundancies and uncover cost-saving opportunities within your technology stack.

- Identify ways to increase ROI on Microsoft Security investments.

- Receive a tailored roadmap to accelerate your Microsoft Security adoption and boost overall security maturity.

Why FPT Software?

FPT Software is endorsed and validated by Microsoft as a leading cybersecurity partner:

- Microsoft Intelligent Security Association (MISA) Member
- Certified Microsoft AI Cloud Solutions Partner
- Advanced Security Specialization Partner:
  - Cloud Security
  - Threat Protection
  - Identity and Access Management
- Cybersecurity Architect (SC100)
- Azure Solution Architect (AZ305)
- DevOps Engineer (AZ400)
- Azure Administrator (AZ104)
- Azure Security Engineer (AZ500)
- Security Operations Analyst (SC200)

With FPT Software's Sentinel Accelerator Program, you gain expert guidance and a clear roadmap to optimize your Microsoft Sentinel capabilities, strengthening your security posture efficiently and effectively.
