Risk & Compliance

What We Do

Accelerated Deployment
Manage data based on its confidentiality, ensuring compliance and reducing the risk of data breaches

Data Classification
Manage data based on its confidentiality, ensuring compliance and reducing the risk of data breaches by label and DLP policies

DSPM for AI & Copilot
Central management location to help you quickly secure data for AI apps and proactively monitor AI use

Benefits

Enhanced Data Governance
Gain comprehensive visibility and control over your data with automated discovery, classification, and lineage tracking

Scalability & Coverage
Easily scale to manage data across on-premises, cloud with seamless integration.

End-to-end Security Practices
Protect sensitive data with built-in compliance, access controls, and advanced security features.
