

Power Apps Scoping Workshop

Fractal Analytics is **Microsoft's strategic business partner**, with a business unit focused on business application, development, and data visualization. To help as many customers as possible, Fractal Analytics has prepared a consulting package called **"Power Apps Scoping Workshops"** in partnership with Microsoft. **This weeklong engagement with a two-day on-site workshop** is designed to **help your team scope** your Power Apps deployment. During this workshop, Fractal Analytics will work with you to scope Power Apps. At the end of the workshop, **you'll prepared to embark** on a successful Power Apps project and implementation.

DURING THIS WORKSHOP, FRACTAL WILL

Provide your team with an in-depth overview of Power Apps

Scope detailed Power App implementations

Lead a hands-on workshop demoing Power App functionality

Scope configuration of back-end data sources and security requirements

Walk through the key features of Power Apps, accelerating your team's journey
