Strengthen your NIS2 compliance

Factsheet

When do we need to be compliant to NIS2?

All member states are speeding up in getting ready. Organizations covered by the NIS2 are expected to be compliant in 2025 or even earlier.

How does NIS2 compare to other legislation/standards?

NIS2 is the successor to NIS1.

The EU member states are currently in the process of transposing the EU directive into local law.

This law is directly binding on the concerning organizations. Based on the requirements of the NIS2, a 'NIS2 ISMS' is required as a minimum.

When can we start?

As soon as possible. Implementing NIS2 means work and with help of Cyber Basics the implementation can start today.

The Cyber Basics NIS2 portal contains the already officially valid version of the European NIS2 Directive. You can start right away based on our knowledge in our NIS2 portal.

We are constantly updating our Cyber Basics platform with all new legal developments in the coming year.

This means that you will always have up-to-date knowledge about the legal requirements.

What legislation is the portal based on?

'The European Directive (EU) 2022/2555 of the European Parliament of the Council of 4 December 2022 on measures for a high common level of cybersecurity across the Union'.

Who needs to be compliant to NIS2?

Basically, the following organizations are covered by the NIS2:

'**Essential Organizations**':
1. Minimum of 250 employees or;
2. An annual turnover of more than €50 million and a balance sheet total of more than €43 million.

'**Significant Organizations**':
1. Minimum of 50 employees or;
2. An annual turnover and balance sheet total of more than 10 million euros

'**Smaller organizations**' may be covered by NIS2 based on their activities.

Different member states offer their own tools or documents to do a self-check.

About us

Cyber Basics is a collaboration between Waveland European Lawyers and Frieser & Schuckmann. The online products of Waveland European Lawyers enable thousands of users to quickly and efficiently implement their policies, procedures and registrations. By collaborating with cybersecurity expert Frieser & Schuckmann, you get the seamless link between your ISMS policy and the technical measures you need to take to comply with NIS2.
