

# Natural Language Processing × AI

# concept Encoder

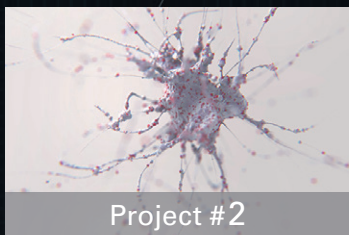

- EMR (Electronic Medical Record) and Scientific & Medical Articles are transformed into vectors
- NLP analysis with biochemical measurements

conceptencoder<sup>®</sup> materializes  
evidence-based medicine (EBM)

Project #1

Fall prediction AI system,  
“Coroban<sup>®</sup>”

Project #2

Dementia diagnosis AI  
support system through  
natural conversation

Project #3

Novel Drug discovery AI  
support system
