Viva Insights Analyze Package

Provide business analysis based on Viva Insights Dashboards & suggest actions under "Analytics as a Service" model

*Key Benefit:
Realize business value from utilizing Viva Insights*

Engagement Context

- Customers already have Viva Insights set up but do not have team capacity to analyze the data, or would like third-party support on analytical capabilities

- FRONTIS can help analyze data from Viva Insights, and present key findings, recommend actions and track results to executives on a regular basis

Key Activities

- Monitor Viva Insights dashboards and analyze data for customers

- Create a report with key findings about employees' working behaviors and collaboration patterns, etc.

- Present insights from Viva Insights with recommended actions to improve productivity, well-being and engagement

- Duration: Every 2-4 weeks
