Majesco Loss Control

Elevating Risk Management to Unparalleled Heights

In today's fast-changing world, the parameters of risk are not just shifting—they're being completely redrawn. Emerging new risks, climate change, technological advances, and socio-political shifts are creating an entirely new set of challenges that test the traditional boundaries of underwriting and risk management. Insurers are grappling with how to navigate this complex, unpredictable landscape while meeting increased customer expectations for personalized services and competitive pricing.

This turbulent environment elevates the importance of intelligent digital risk management solutions that adapt to evolving risk trends. It's not just about assessing risk anymore; it's about anticipating and managing it to drive risk resilience, profitability, and customer satisfaction.

Majesco Loss Control elevates risk management to meet this breadth of insurer demands, keeping them ahead of the risk curve. Loss control is not limited to just the complex, high-risk scenarios, but can be used across the broader portfolio using self-service capabilities, seamless automation, and integration into core operations.

Transform Your Risk Management Strategy

Our cutting-edge solutions featuring Majesco Loss Control and Guide Stream equip you to navigate the changing risk landscape. Seamlessly integrated with Majesco P&C Intelligent Core Suite, our solutions not only identify risks but also help you prevent future losses.

Digital Reach

Accurate risk assessments anytime, anywhere via adjusters, self-survey or video.

Deep Intelligence

Data-driven risk assessments to optimize underwriting for policies and portfolios.

Risk Resilience

Act proactively to identify and mitigate risks before they materialize.

Why Majesco?

1 **Operational Optimization**

Automate and streamline every step of your survey lifecycle. Seamlessly integrate data across platforms to reduce manual effort and optimize productivity.

2 **Risk Resilience**

Harness the power of data intelligence to spot emerging risks and tailor strategies to reduce risk and improve underwriting profitability.

3 **Digital Risk Assessment**

AI-driven video risk assessments expedite evaluations, obviating the need for on-site visits and saving you valuable resources.

4 **Underwriting and Portfolio Profitability**

Utilize AI-enabled property risk assessment models to precisely determine risk levels for diverse properties, individually or for an entire portfolio to make smarter decisions.

5 **Data Driven Insights**

Access the industry's largest set of survey data, comprising over 16+ million property surveys and 200+ million tagged photos.

" Majesco Loss Control and Majesco Property Intelligence enable us to bring AI-powered risk recommendation and virtual property scoring to our customers. They are perfectly aligned with our customer-centric strategy."

Charles Stahler
CEO, National Safety and Risk

" By integrating Majesco's Loss Control platform into CNA's processes, we can perform in-depth data mining, uncovering key metrics that will help CNA effectively and efficiently target our resources and services for policyholders," said Steve Hernandez, Senior Vice President, Commercial Risk Control, CNA. "Ultimately, our policyholders will also benefit from this upgrade, having increased portal access, enhanced technical support and streamlined work products."

Steve Hernandez
Senior Vice President, Commercial Risk Control, CNA

Are You Ready to Revolutionize Your Risk Management?

By offering an in-depth view of the modern risk landscape and innovative tools to navigate it, Majesco's Loss Control solutions are your next gen solution to master today's complex risk and underwriting challenges.
