

Kickstart Workshop - Next Generation Workplace

Your Future is NOW!

A deep dive into Microsoft cloud solutions for end user computing that provide your employees with access to a secure and productive desktop experience from virtually anywhere.

Hybrid work is driving user segmentation with companies needing to invest in role specific end user computing solutions. In addition to this, their IT departments require an integrated cloud service in order to manage the growing complexity. Fujitsu is able to offer you a **Microsoft Next Generation Workplace** Workshop, enabling you to bring together a complete end user computing experience that delivers a holistic solution. The workshop can be customised to meet your organisation's specific requirements.

Let us show you how to leverage **Windows 365, Azure Virtual Desktop, Microsoft Endpoint Manager** and **Windows 11 Enterprise** to bring together a complete solution for today, tomorrow and the future of hybrid working.

Who should consider participating?

- Anyone planning upgrades to their environment
- Anyone considering **Windows 11**, modernising Workplace or improving their **Cyber Security**
- Anyone with the need to manage their client systems from anywhere
- Anyone wanting to improve cooperation with their partners or customers
- Anyone whose users require a greater degree of freedom, e.g., working from home or optimising processes through the use of bots
- Anyone whose current onboarding process for new employees is complex and unwieldy

Benefits

- **Gain an overview of the benefits of a Next Generation Workplace**
- **Cloud Mind Shift**
- **Establish Automation Processes**
- **Windows 365 Clients (Trial)**
- **Reduce infrastructure costs**
- **Get all the information you need in order to start a proof of concept**

Why should you think about participating?

If any of the previous points apply to you then you could benefit from this workshop. To make use of Fujitsu's expertise as the ideal partner to ensure that your environment is both secure and compliant.
