

Fujitsu Conversion Services for Microsoft Dynamics

Boost efficiency & agility through interconnected systems and data-driven insights

Modernization & future-proofing enterprise landscapes is key to stay relevant in today's world while unlocking the Power of Cloud & AI for business growth

Fujitsu with its experiential learning, Microsoft toolkits, conversion framework and partner tools and technologies delivers a fully transformed ERP/CRM landscape to customers as part of the outcome.

Fujitsu leverages Agile/Scrum methodology and Fusion delivery approach to deliver wide range of migrations of legacy instances to Dynamics 365 cloud, be it On-premises/hosted (AXAPTA (AX), Navision (NAV), CRM Online) and leverages automation and best practices that enable efficiency while ensuring customers can focus on their business.

Scalability & Adaptability for Future Growth

Shift to cloud future-proof investments, ensures scalability, flexibility needed to adapt in changing market conditions and meet future growth & long-term strategic goals.

Strengthen customer relationships & associations

The cloud's 360-degree customer view facilitates personalized interactions across departments, strengthening customer relationships and driving increased satisfaction, retention, and revenue.

Data-Driven Decision Making & Innovation

Advanced analytics and AI capabilities result in identifying trends, predicting outcomes, and gain deeper insights into operations that empower businesses to make data-driven decisions.

Operational Efficiency & Productivity

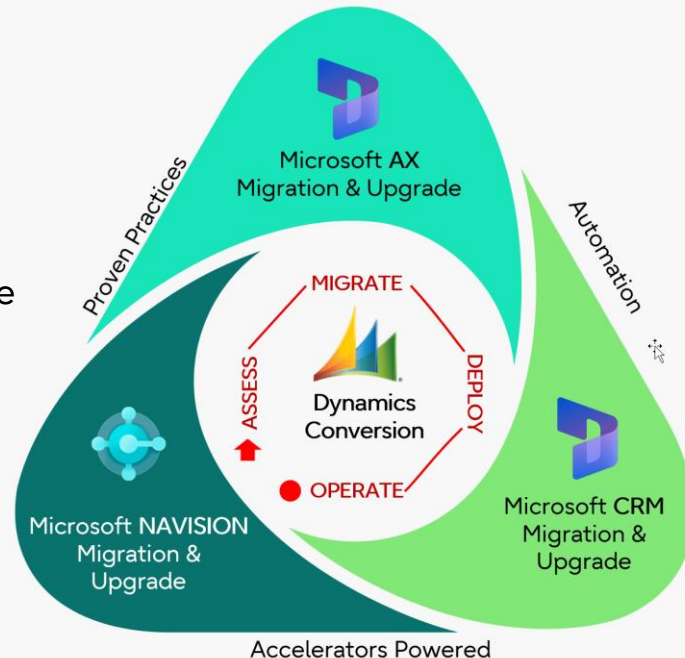

Unified nature of Dynamics 365 streamline business processes, automate repetitive tasks and improves collaboration across departments leading to increased operational efficiency, reduced costs, and improved productivity.

Our Approach & Outcomes

Approach

Deliver seamless migration or upgrade of Microsoft Dynamics legacy applications to Microsoft Dynamics 365 Cloud applications leveraging Fujitsu Experience & proven best practices at pace.

- Accelerate Dynamics Landscape Assessment towards Upgrades or Re-implementation of Microsoft Dynamics AX, Navision, CRM on-premise workloads
- Migration Path / roadmap towards seamlessly Integrated solution on Microsoft Dynamics 365 Cloud

- Automated Tests across modules to help speed up Functional and Integration testing

- Standard Migration Methodology for Applications & Data (*Microsoft Dynamics AX, Navision, CRM*)
- Standard migration methodology & tools

Partner Ecosystem

ACCELO

Outcomes

You'll receive a fully migrated / upgraded system — supporting your business requirements and future readiness.

Why Fujitsu

- Deep industry experience across manufacturing, services, retail & others
- Trusted advisor to mid-market and enterprise transformation teams
