

RapidQA for Enterprise Solutions

Allow us to handle everything for you

RapidQA for Enterprise Solutions is a SaaS solution that seamlessly conducts automated tests for updates, ensuring uninterrupted business operations.

Essentially, we pre-certify and automate Enterprise Solutions environment test plans for your convenience!

How it works

- / Manual and automated testing in one place
- / Automated test projects synchronized with vendor updates
- / Automated test projects kept by version
- / Test evidence automatically generated and kept permanently
- / Configuration supported by Alithya
- / Over 1,000 certified test scenarios for core Oracle Fusion features

Additional services

- / Start-up accelerator
- / Tailored expertise
- / QaaS (managed service)
- / Automation outsourcing
- / Quality assurance training, guidance and support so you can work on your own
- / QA & automation support

Key benefits

- / No technical skills required
- / Automation via Recorder or keyword association
- / Save testing time and increase stability
- / See overall and detailed results at any time
- / Eliminate the added stress of forced upgrades

RapidQA for Oracle Fusion Cloud

- / Up to date with Oracle deliveries
- / Tests run in 24-48 hours after Oracle receipt cycle
- / Manage the stress and risks involved in Oracle updates

RapidQA for Dynamics

- / Scripts updated quickly and easily compared to other automation tools

Many options

- / Access to ready-to-run test suites
- / Create or access custom test suites
- / Managed service: We take care of automation and executions
- / On your own: You have access to RapidQA for your Enterprise Solutions and you manage, automate and run the tests yourself
- / Hybrid: Activities are shared

Do you use other ERPs or CRMs?

You can also use RapidQA to automate tests in:

- / SAP
- / Salesforce
- / Workday
- / And many more

The Alithya difference

Our trusted digital strategy and transformation consultants have been combining technological expertise with a client-centred approach for more than 30 years. We are transforming the world one digital step at a time backed by our expertise and collective intelligence to develop practical and customized IT solutions that address our clients' complex challenges.
