

Power Platform Governance Foundations: 6-Week Implementation

Transition from uncontrolled citizen development to governed, scalable innovation in 6 weeks. We establish a robust Power Platform Center of Excellence (CoE) and a structured innovation framework, empowering safe, secure, compliant, and enterprise-aligned solutions. We address:

- Uncontrolled app/flow proliferation ("wild west").
- Data security/compliance risks from ungoverned development.
- Lack of standards, reusable components, and best practices.
- IT's inability to securely scale low-code initiatives.

Scope:

- Weeks 1-2: Foundation & Governance Design: Define CoE charter, vision, operating model; design tailored governance; establish environments.
- Weeks 3-4: Technical Implementation & Pilot Scoping: Deploy/configure CoE for visibility/control; identify high-value pilot and citizen developer.
- Weeks 5-6: Guided Pilot Development & Handover: Hands-on support for pilot development, ensuring adherence to governance; handover.

Deliverables:

- Deployed Power Platform CoE.
- Comprehensive Governance Handbook.
- Delivered Pilot Solution.

futurice

We are Futurice – an outcome-focused digital transformation company, empowering the world to act.

WITH THE POWER OF

People

...who always strive for improvement because they are the ones who truly care to make a difference.

Technology

WE ARE

Innovators, builders and change agents

In times of profound changes across markets and business environments, organizations find themselves in fundamental transformations. It has become crucial for them to learn how to operate in this increasingly uncertain world that could look different by tomorrow.

As experts in digital transformation, we focus on digital impact that enables sustainable growth and builds systemic resilience. We strive to shape the next generation of customer experiences, business models and operating models for our clients, and deliver measurable outcomes that positively affect their businesses, industries, and society at large.

OUR GLOBAL OFFERINGS

Strategy and Renewal

Providing people-centric strategic consulting with data & AI and empowering you to boost impact, improve productivity, engage employees, and satisfy customers.

Digital Solutions

Transforming customer engagement, elevating operational efficiency, and developing data-driven digital solutions that align with your business needs.

Managed Services

Taking care of the applications, platforms and managed services in your digital portfolio to ensure they help you create a lasting business impact.
