

Cloud Adoption Framework – Governance Workshop

Enables one to define, understand, and transform the cloud governance setup

The offering helps in assessing the current Cloud Adoption Framework practices, corporate, and governance policies. This aids in identifying the various risks and compliance requirements. Based on the assessment outcome, you can establish the governance baseline.

CAF Governance Workshop as an offering

Duration of the workshop: 1 day There are no charges on the offering for the day

Governance Workshop Offering:

The Cloud Adoption Framework governance refers to a set of rules summarized as policies aimed at minimizing risk, controlling costs, driving efficiency, and accountability for an environment. Our CAF Governance workshop focuses on the following aspects:

Methodology Overview

Establish a basic understanding of the methodology that drives the cloud governance. Identifying the required action that aligns with your business goals and is following Microsoft's best practices.

Governance Benchmark

Assessing the current governance compliances and corporate policies that include the Azure cloud environment. Outlining the vision for the future state.

Initial Governance Foundation

Establishing a foundation that can quickly evolve. Implementing the Minimum Viable Product using a set of governance tools.

Evolve Governance Foundation

Planning and iterating the governance controls. Monitoring the policies to mitigate the risks.
