Patient Access Portal

SECURE

Worldpay Integration
Direct API integration with the global leader in omni-commerce payments, processing more than 40 billion transactions annually.

PCI Compliant
Worldpay handles and stores all financial information, exempting your organization from PA-DSS compliance requirements.

Multifactor Authentication
Patients can access more features by logging in with a secure code delivered to their mobile phone or landline.

CONNECTED

Detailed Reporting
You can view comprehensive transaction information for your organization.

Custom Branding
The website shows your logo, you set the website title, and you can choose from a variety of color palettes.

Immediate Posting
Online payments are automatically synchronized with your Financial Management system in real-time.

ACCESSIBLE

Patient Payment Options
Patients can make payments with all major credit card brands or electronically draft from bank accounts.

Saved Payment Accounts
Patients can save account information for convenient reuse on future balances.

Payment History
Patients can view a comprehensive history of all payments to the practice and access additional information for payments made through the portal.
