Introduction

The “Galax - License Profiles” extension is designed to streamline the management of license information for various applications provided by Galax. This extension simplifies the onboarding process by allowing users to easily upload their corresponding license files during installation.

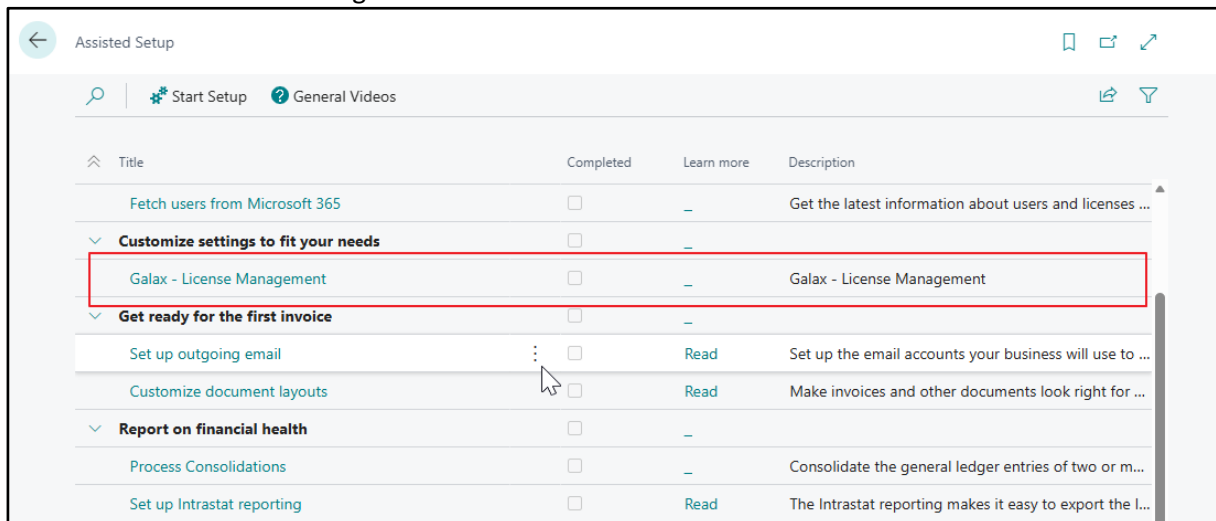

Once the license file is uploaded, the extension activates all relevant functions and features, ensuring that users can fully leverage the capabilities of their Galax applications. With a user-friendly interface and robust functionality, the Galax - License Profiles extension empowers organizations to manage their licenses effortlessly.

Setup

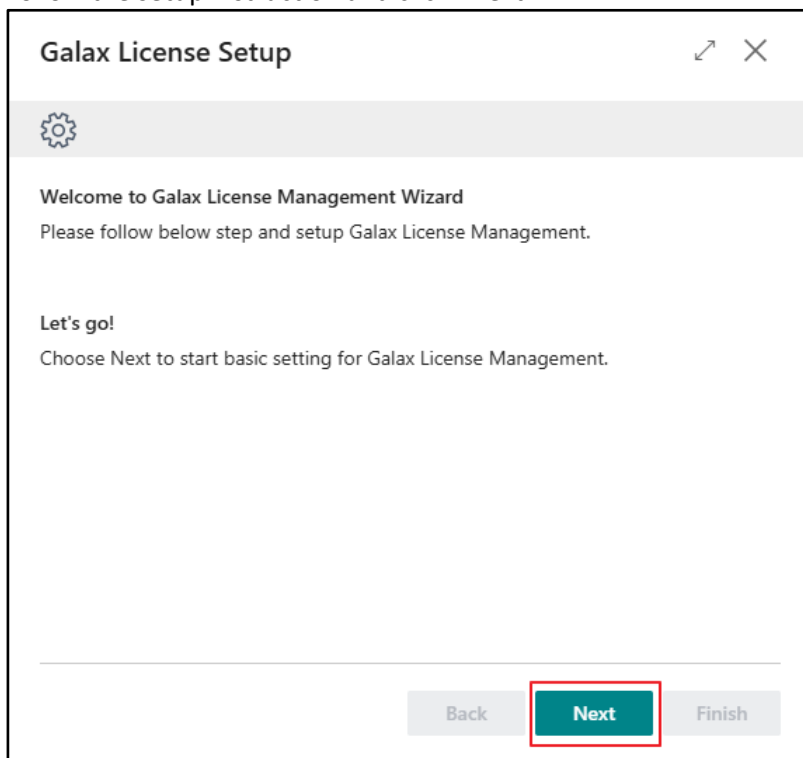

1. Go to "Assisted Setup"

2. Select "Galax – License Management"

3. Follow the setup instruction and click "Next"

4. Setup the "Public Key"
