

## DEVOPS MATURITY ASSESSMENT

### Accelerating your Cloud & DevOps Journey

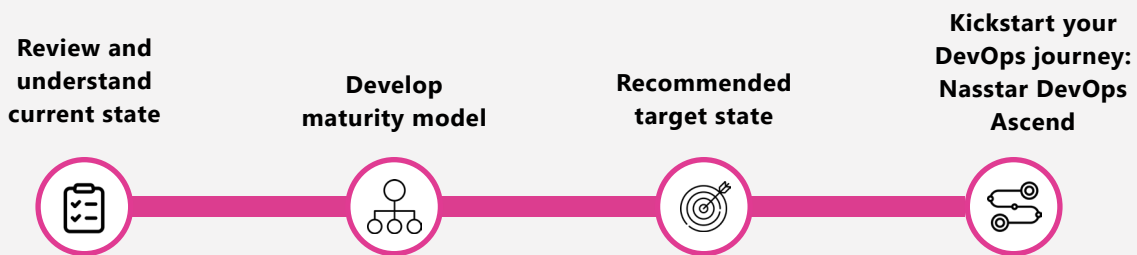

DevOps, a combination of software development (dev) and operations (ops), is a set of practices, tools and cultural philosophy that unites people, process, and technology to enable coordination and collaboration across multiple teams. Getting it right means faster deployment of new products and easier maintenance of existing deployments.

### WHAT IS IT?

The Nasstar DevOps Maturity Assessment combines our in-house developed maturity assessment tooling, combined with our accredited DevOps SMEs who have years of experience in curating and building DevOps teams in the Microsoft ecosystem.

The assessment provides a framework to help you better understand the current state of your DevOps practices and maturity and identify key areas for improvement.

### HOW DOES IT WORK?

### WHY WOULD MY ORGANISATION NEED THIS?

-  **'We think we are doing DevOps and automation correctly, but can't be sure...'**
-  **Your SDLC is slow, and releases are unstable**
-  **You have little/no testing around your IaC**
-  **You have little/no testing around your frameworks**
-  **You have little/no deployment strategies**
-  **Lack of collaboration in your team(s)**
-  **You lack a blameless culture**
-  **You have little business continuity for critical applications**

## WHY NASSTAR?

Our output will guide you on how to:

**Increase Development Velocity**

**Increase your DevSecOps posture**

**Increase the quality of your code (IaC and application)**

**Ensure your application is highlight available and reliable**

## OUTPUTS

- // **Maturity model developed and provided** to highlight areas where there are gaps between the present state and desired/best-practice state.
- // **A tangible list of actionable recommendations** to define the roadmap for your DevOps transformation journey.
- // **Access to preferential pricing** for Nasstar DevOps Jumpstart.
- // **Recommendation(s) on upskilling** existing workforce and/or hiring the right talent.
- // **Recommendations on enterprise tooling** to facilitate your DevOps journey.

## THE ENGAGEMENT

This engagement is delivered by a team of Nasstar DevOps experts over the course of 2 weeks. Est £12,500.00 - £25,000.00, dependent on the size and complexity of the organisation and development team(s).

The engagement will be delivered remotely, unless requested otherwise.

With the Nasstar DevOps Maturity Assessment we adopt an innovative approach, not just focusing on your tool-chain, but your people.

**We will engage closely with various stakeholders within your organisation to understand your cloud and DevOps ambitions, strategy and vision to ensure the recommendations are aligned.**
