

Storm Manager Plus from GE Digital

Manage the entire event in one platform.

Shorten restoration time and improve cost recovery.

Storm Manager Plus helps companies impacted by natural disasters manage the influx of resources needed to deal with the disaster. The platform brings unmatched efficiency to the process of evaluating weather impacts prior to a storm, securing, and tracking resources, providing meals, and lodging, tracking all relevant expenses and ensuring all parties are paid properly.

Outcomes

- Cost savings up to 30% of the storm cost due to scalable, automated solution
- Reduce outage time and improve customer experience
- Effective resource management via GPS tracking of internal and external resources
- Connect field and office operations in real time
- Create a simple and consistent digital record of time and activity
- Fast and dynamic reports
- Improved utilization and positioning of resources
- Enhanced compliance reporting across all categories

Storm Manager Plus, part of GE Digital's analytics portfolio, facilitates the acquisition and management of resources throughout the planning and restoration event, including:

- Resource Activation & Acquisition
- Workforce Development / Crew Rosters
- Time / Expense Tracking, Approval, & Invoicing
- Dynamic Reporting & Data Requests

01 Decrease Costs

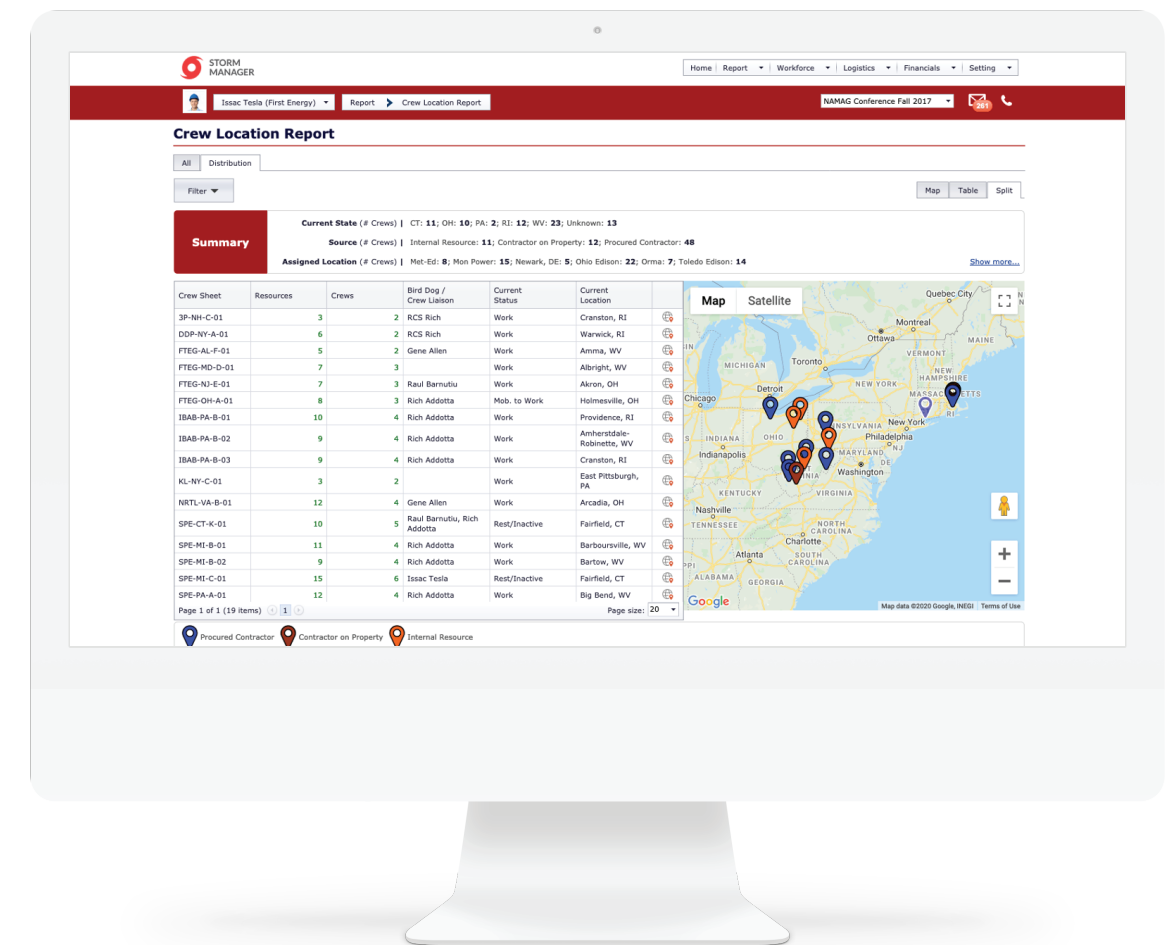

Storm Manager Plus provides improved crew utilization, reduces support staff overtime, and eliminates unused hotel rooms. Streamlined post storm reconciliation and a reduction in time spent responding to regulatory requests also lead to a decrease in costs.

02 Increase Efficiency

Storm Manager Plus connects utilities and contractors on the same platform, eliminating handoffs. Automated reporting as well as simplified lodging and meals coordination all lead to an increase in efficiency.

03 Improve Cost Recovery

Storm Manager Plus provides streamlined data request options and facilitates the approval of hours and expenses as they occur. The platform provides a digital record of all activity and every transaction is time, user and GPS stamped.

Track and execute any relief effort at all levels from any device with unparalleled speed and efficiency.

Utilities are dealing with an increase in the severity and frequency of storms as well as rising consumer expectations and regulatory oversight. The key to a successful restoration is obtaining the resources required and then using them efficiently to get the lights back on. Storm Manager Plus will have an immediate and tangible impact on your restoration response.

About GE

GE (NYSE: GE) is the world's Digital Industrial Company, transforming industry with software-defined machines and solutions that are connected, responsive and predictive. GE is organized around a global exchange of knowledge, the "GE Store," through which each business shares and accesses the same technology, markets, structure and intellect. Each invention further fuels innovation and application across our industrial sectors. With people, services, technology and scale, GE delivers better outcomes for customers by speaking the language of industry.
