Smart Payment... Endless Possibilities.

Fidson Pharmaceuticals.

Leveraging Gemspay solution, Fidson has unlocked unlimited possibilities via automated customer payment collections real time and allowing quicker and prompt order fulfilment.

The organization is also able to fulfil disbursement right from the comfort of her in house ERP system making bank reconciliation a seamless activity.

Our Products

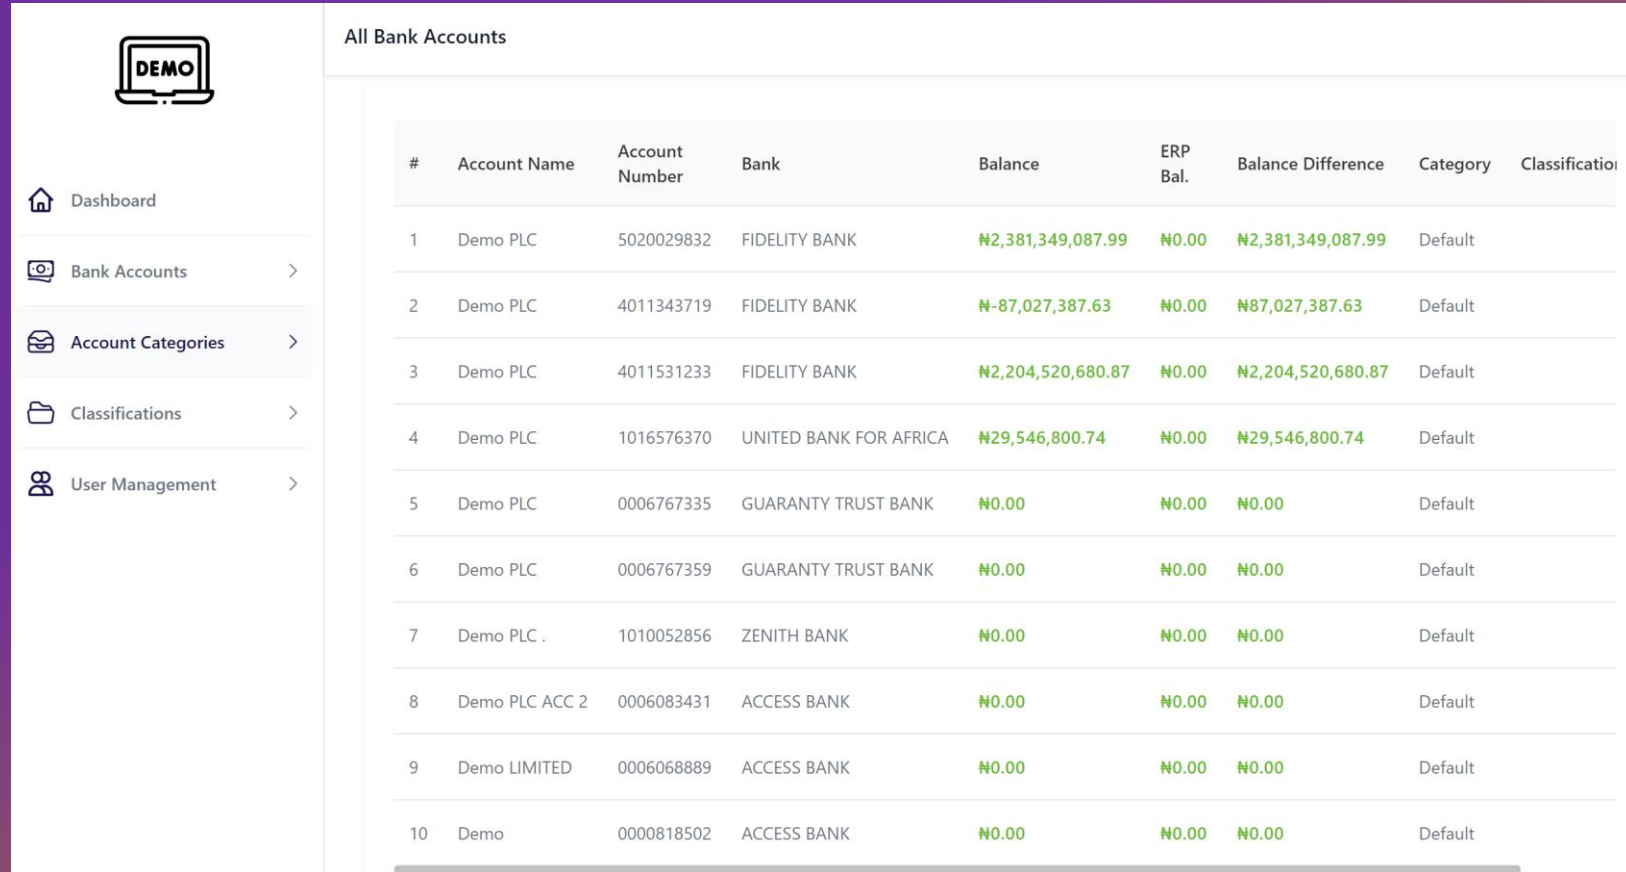

Single View Portal

Features

- > View real time account balances for all bank accounts on a dashboard.
- > Real-time bank balances comparison between in house financial management solution and the bank balances.
- > Customized view for account categorization (e.g. income accounts, expense accounts, Project accounts et al)

Benefits

- > Eliminate the hassles of logging into various bank portals to extract balances.
- > Promotes quick financial analysis and decision making.

The screenshot displays a web application interface for managing bank accounts. On the left is a sidebar with a 'DEMO' label and navigation links: Dashboard, Bank Accounts, Account Categories, Classifications, and User Management. The main area is titled 'All Bank Accounts' and contains a table with 10 rows of account data. The table columns are: #, Account Name, Account Number, Bank, Balance, ERP Bal., Balance Difference, Category, and Classification. The data shows various accounts from Fidelity Bank, United Bank for Africa, Guaranty Trust Bank, and Access Bank, with balances in Nigerian Naira (₦).

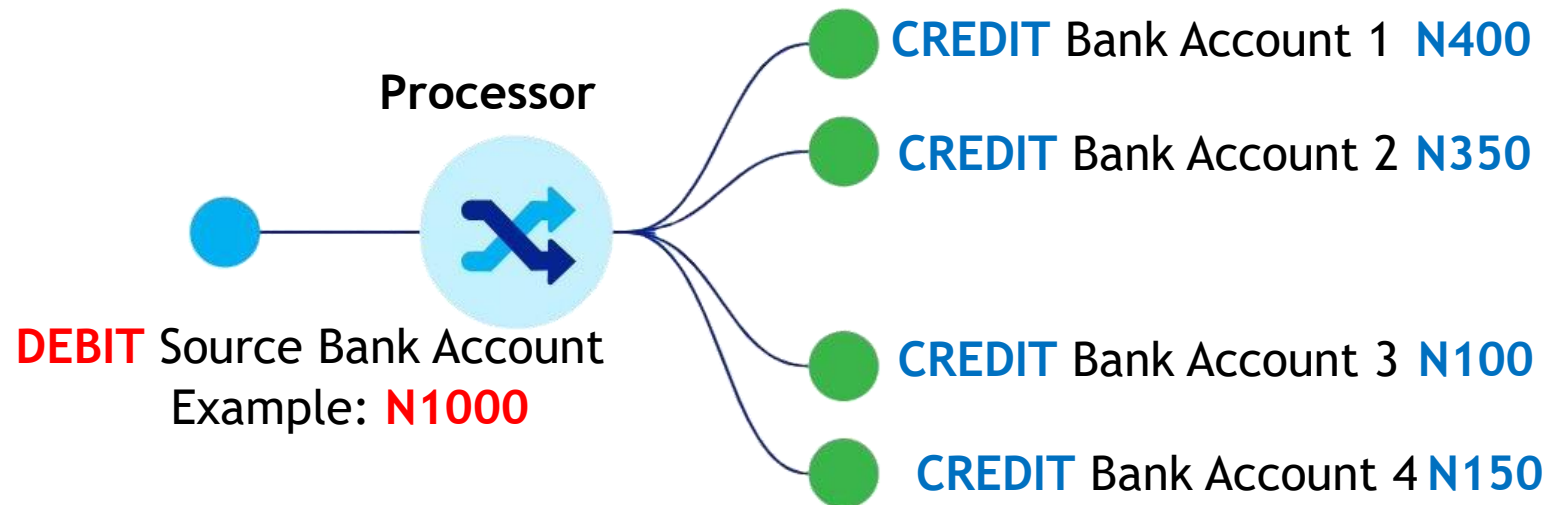

#	Account Name	Account Number	Bank	Balance	ERP Bal.	Balance Difference	Category	Classification
1	Demo PLC	5020029832	FIDELITY BANK	₦2,381,349,087.99	₦0.00	₦2,381,349,087.99	Default

Oktopus

Our Oktopus solution provides enablement for bulk transfer of funds to multiple accounts by debiting a source account once and then performing multiple transfers to various accounts. Examples include salary payments, vendor and contractor payments etc.

Benefits

- Eliminates the need of sending instructions to the bank .
- Provides real time fund transfer with automatic update on your ERP solution
- Takes away manual interventions or uploading to another app outside the ERP.

KK-Kollect Kollect

Leveraging modern virtual account technology, our **Kollect Kollect** digital solution allows merchants and other corporate outfits receive payment from their customers via multiple options in a secure and fast way.

The ERP in house receives notification for this payment simultaneously.

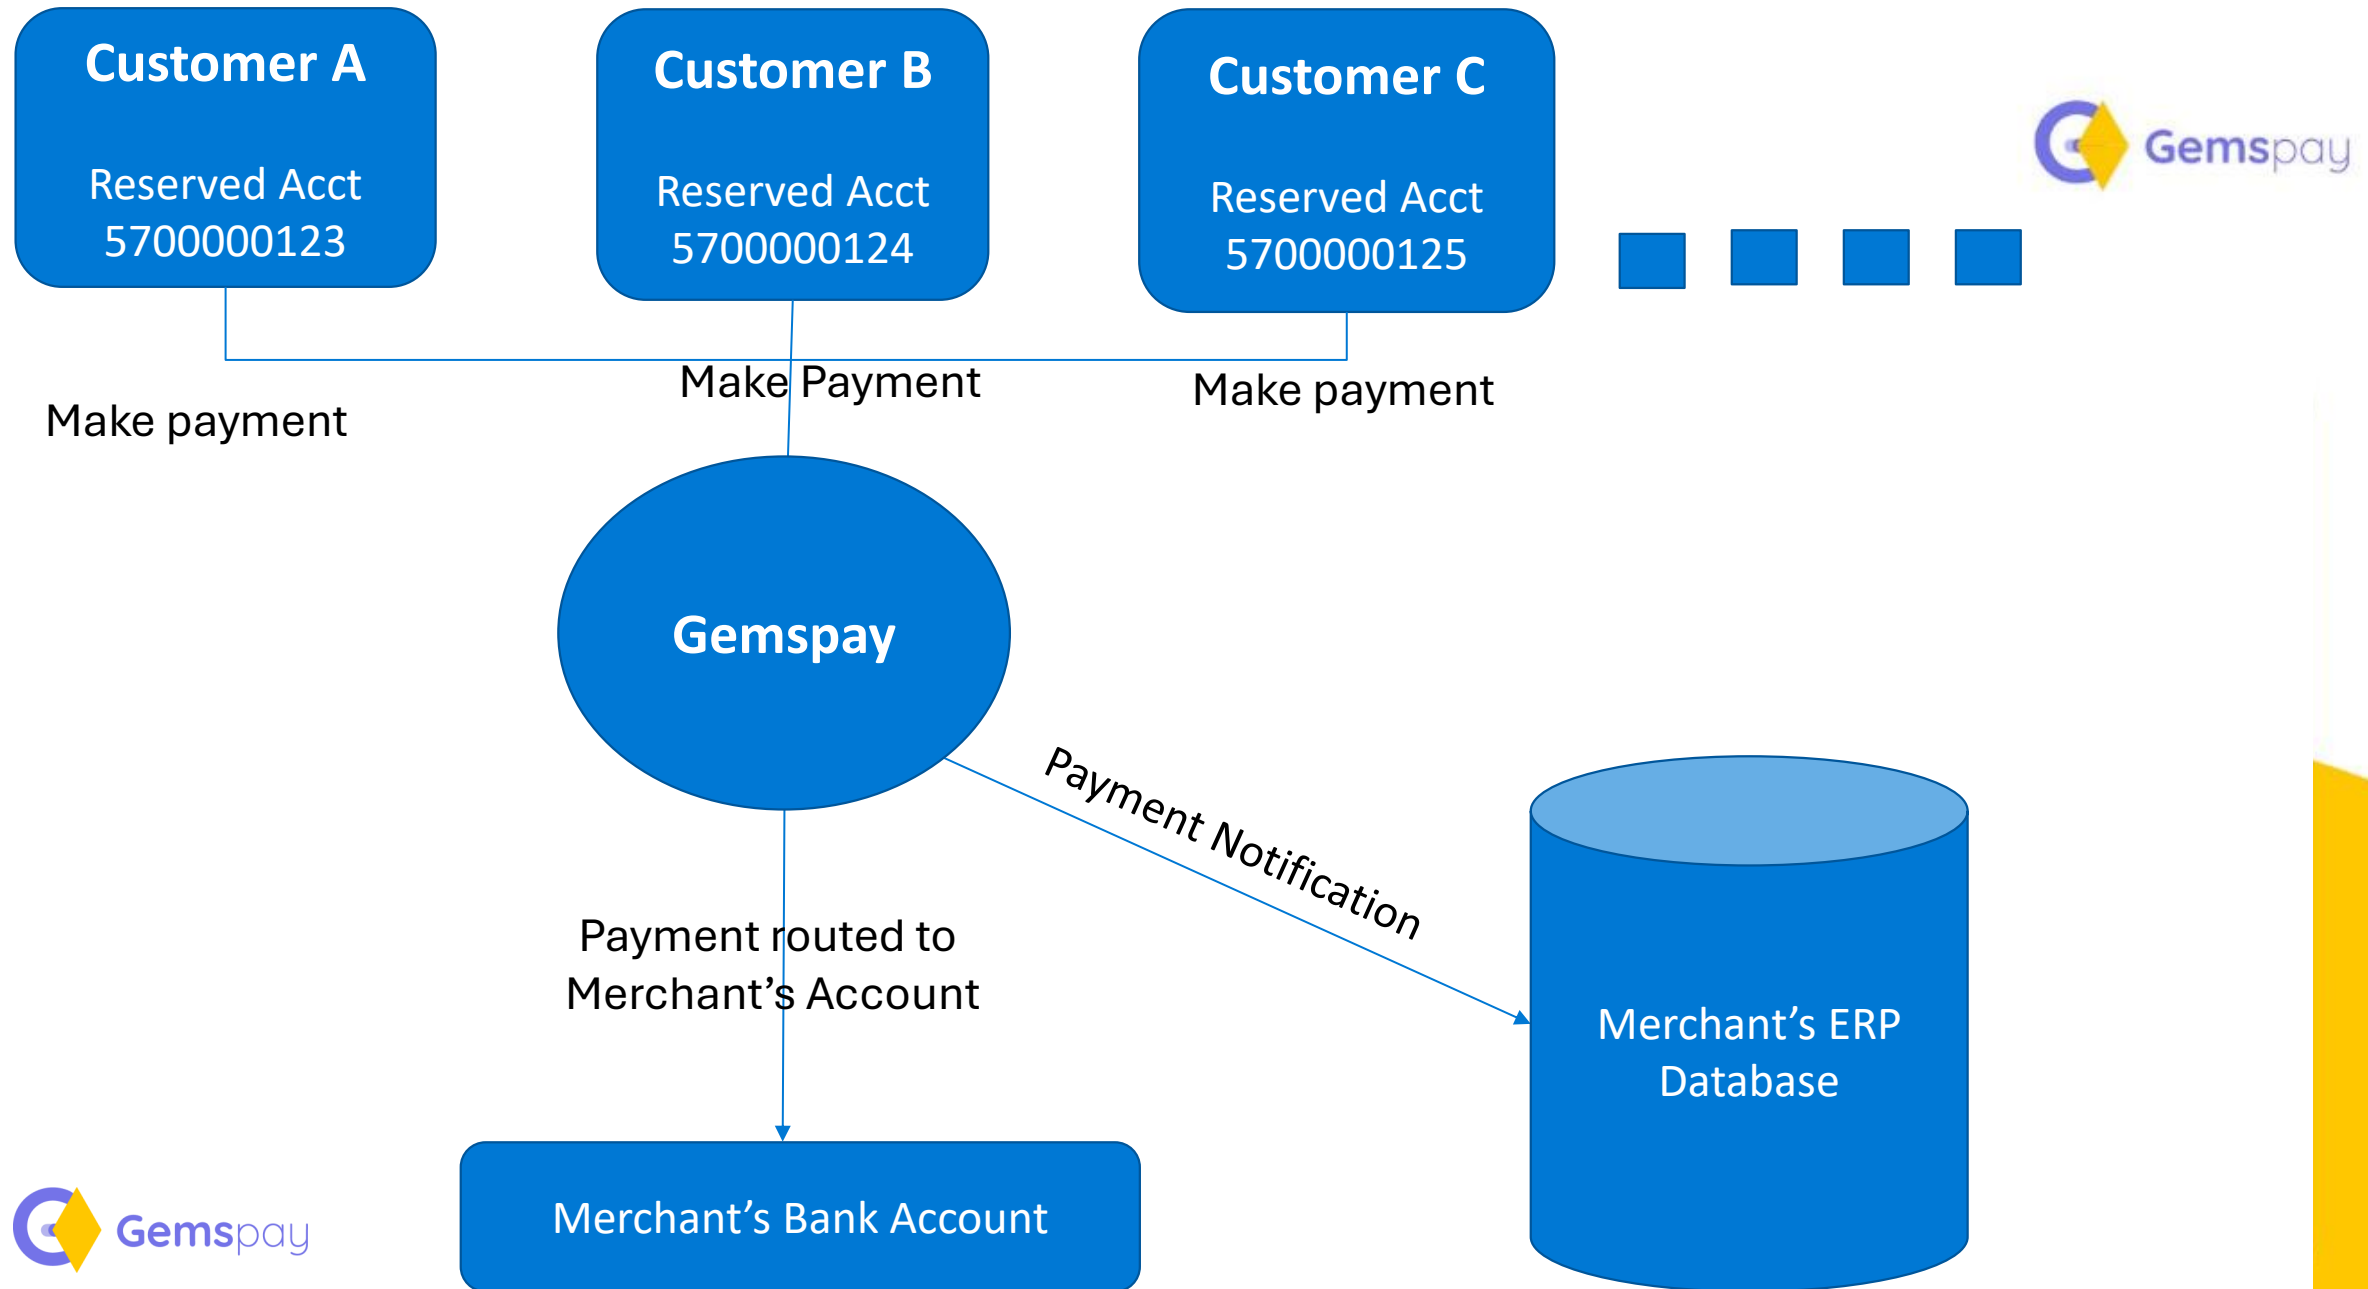

Multiple Options include:

- Bank Transfers (payment on account or invoice)
- Cards
- USSD
- QR Code.

Benefits

- Real time transaction processing leading to prompt payment settlement and quicker order fulfilment.
- Funds are processed in a secure and reliable route.
- Provides reporting and analytic tools that offer valuable insights into transaction trends, customer behaviour and revenue performance.

Kollect Kollect leveraging virtual account for your customers

Dyna-Distro Solution

- > Provides for ERP extensions across various locations
- > Injects real time payment automation across the portal.
- > Introduces customer engagement on the overall solution impact to the company
- > Dashboard and reporting of operations from the various locations.

The screenshot displays the Dyna-Distro Solution dashboard. On the left is a sidebar menu with categories: DASHBOARD, BUSINESS (containing TICKETING, COUPONS, PAYMENTS, CASH LODGEMENT), and PRODUCT MANAGEMENT (containing PRODUCTS, PRODUCT(S) INVENTORY, and PRODUCT RECEIPT LOGS). The main content area features a green header with four summary cards: TOTAL TICKETS (39), PENDING PAYMENTS (9), TOTAL SHIPMENT RECEIVED (7), and COMPLETED PAYMENTS (30). Below this is a 'Tickets' table with columns for TICKET NO., CUSTOMER PHONE, PAYMENT COMPLETE, and CREATED DATE. The table lists five tickets with their respective IDs, phone numbers, payment status, and creation times. To the right of the table is a 'TICKET PERFORMANCE' section titled 'Ticket Value Per Month'. At the bottom, there are two more sections: 'All time sales analysis' with a 'Today' dropdown, and 'Completed payments breakdown' showing 'Total Quantity Sold (KG): 0.00' and 'Total Payments (N): 0.00' with another 'Today' dropdown.
