FORD OTOSAN

AKBANK

Akbank is one the biggest bank in Turkey. They do have over 1000 branches all over the country.

 +60 Bn \$ Active Asset

 +14 K Employee

<https://kariyer.akbank.com>

Problem

SAP couldn't handle their recruitment and onboarding processes, therefore, they decided to go with an alternative solution.

Our Solution

We used our platforms technical capabilities to build an unique experience for applicants and Akbank HR team.

Is Bank is the biggest bank in Turkey. They do have over 1500 branches all over the country.

 +85 Bn \$ Active Asset

 +20 K Employee

Problem

Is Bank is using Oracle at the backend, but couldn't succeed on building unique recruitment processes.

Our Solution

We brought our expertise to help them to build their complex requests on recruitment and onboarding.

Turkcell; is the biggest domestic telecommunications and technology services company located in Turkey.

 +4 Bn \$ Annual Volume

 +5 K Employee

Problem

Standard performance system applications were insufficient in the developing digital age.

Our Solution

The Flex performance management system built on HumanSoft, providing 360-degree performance evaluation and social network analysis with continuous feedback.

Ford Otosan is a joint venture of Ford Motor Company and Koç Holding. Ford Otosan, since 2005, is among Turkey's top 3 export firm.

 +5 Bn \$ Annual Volume

 +6 K Employee

Problem

The target was to have the same level of knowledge in sales and technical support staff at all dealers and services.

Our Solution

A Learning Management system was established on HumanSoft, which allowed the company headquarter to track education activities of whole dealers.
