People in distributed & hybrid workplaces need to stay connected to each other and to information.

Information workers have too many collaboration and information barriers to be truly productive.

We don't know where people will be when we need to meet with them.

80% of people say that communicating virtually makes them more strategic with their daily work.

Cloud technologies move fast, and people fatigue if they don't know how to embrace & benefit from new features.

Generation-e's Prosci certified and experienced change managers enable you to get the most out of your Teams meeting room investments.

We help to engage your people, enable them to be more productive and motivate them around the benefit of the new technology your organisation is deploying for them.

**Improve meetings wherever
your people connect from an
office or home.**

**Enable your people to be more
effective.**

The right change management initiative reduces the time to embrace new technology by 50%.

Without change management, 15% of people will not use new technology.

New technology deployed with change management is 2x more likely to meet the objectives of the project.

Projects with change management are 50% more likely to meet user demands.

Improved output with change management levels were nearly double the original project objectives.

Projects with change management lead to "a more fulfilling and attractive workplace".

69% of the most effective change programs offered training before and after go-live.

The 3 most effective change management initiatives were pre-project change activities, training and executive sponsorship.

Generation-e's 3-day engagement delivers:

- Review of the current meetings landscape including meeting rooms and PCs
- Customised communications plan
- Messaging for you & your executives to send
- Train the trainer workshop

Microsoft Teams Rooms deployed in rapid time to support a distributed workforce in offices and at home.

Challenge was in connecting people who were now working from many locations including from home.

Decision-making was being delayed and Team members were losing their connection.

End of life video technology that people were used to using required a transformation journey.

VAMI benefits from improved meetings

Meetings start in half the time.

Support calls reduced to near zero.

More people able to use meeting spaces without needing support.

Consistent user experience across all spaces helped staff engage clients and each other better.
