

# Microsoft Places - Introduction

Gain a comprehensive understanding of Microsoft Places and its functionalities through a live demonstration, various use cases, and competitive analyses.

## Envision

### Embark on the Microsoft Places journey with ease

The Microsoft Places Introduction offer provides a comprehensive understanding of the features of Microsoft Places and its potential applications within your organisation. Our subject matter experts will demonstrate the functionalities of Microsoft Places and its integration capabilities.

### Explore the Possibilities with Microsoft Places

The package includes a 2-hour remote workshop:

- Outline the vision and strategic direction of Microsoft Places.
- Illustrate the fundamental functionalities of Microsoft Places along with its available integrations.
- Demonstrate how Microsoft Places can enhance the physical work environment.

You will gain a comprehensive understanding of how Microsoft Places can assist in coordinating, modernising, and optimising your workplace.

Co-ordinate. Align people and place with purpose

Modernise. Rebuild connections and improve workplace experience

Optimise. Understand effectiveness & engagement across your workplace

Integrate. Across a platform ecosystem of connected workplace partners

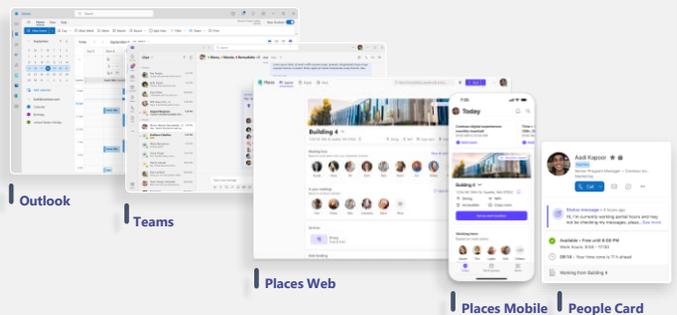

Secure. Trusted data with enterprise grade privacy and controls

### Our offices have not adjusted to our new ways of working

### Places is accessible in the natural flow of work
