# GENZEON

# Gen AI Readiness Assessment – Assess, Adopt & Accelerate

The GenAI Readiness Assessment by Genzeon is designed to help organizations transition their GenAI initiatives from Proof of Concept (POC) to full-scale production. With industry research indicating up to 90% of GenAI POC initiatives failing to reach production, our comprehensive service evaluates your current GenAI readiness, identifies critical gaps, and provides a tailored roadmap to accelerate GenAI adoption and maximize competitive advantage.

## Key Features:

**Strategy Alignment:** Evaluation of AI vision connection to business outcomes

**People & Skills:** Assessment of talent availability and organizational preparedness

**Data Landscape:** Analysis of data quality, accessibility, and governance frameworks

**Technical Infrastructure:** Review of platform capabilities and integration potential

**Process Maturity:** Examination of implementation methodologies and operational readiness

**Value Capture:** Evaluation of measurement systems and ROI tracking mechanisms

## Key Benefits:

**Reduce Failed Initiatives:** Address the key reasons why 85% of AI initiatives underperform.

**Accelerate Time-to-Value:** Move from POC to production 3x faster with a tailored roadmap.

**Optimize Investments:** Gain clear visibility into GenAI costs and required resources.

**Mitigate Risk:** Implement proper governance and security controls from the start.

**Maximize ROI:** Establish clear success metrics and value realization frameworks.

## Who is Benefitted?

**Chief Innovation Officers –** Driving strategic AI initiatives and seeking to transform proof-of-concepts into enterprise-wide solutions.

**Chief Digital Officers –** Looking to accelerate digital transformation with AI-powered capabilities and measurable business outcomes.

**Chief Technology Officers –** Ensuring technical infrastructure can support production-grade GenAI implementation at scale.

**Chief Data Officers –** Optimizing data governance and quality to enable reliable, trustworthy AI solutions across the organization.

## How long does it take?

Our 4-week assessment delivers a comprehensive GenAI Readiness Assessment report, maturity scorecard across all dimensions, prioritized gap analysis, and a detailed implementation roadmap with clear milestones to guide your organization from POC to production.

**About Genzeon:**
Genzeon empowers healthcare organizations with domain expertise, digital engineering, advanced analytics, and AI-powered solutions to enhance operational efficiency, elevate patient and provider experiences, and ensure regulatory compliance
