

"Compliance isn't a spreadsheet problem anymore. It's an architecture problem."

CPS One

The Prefrontal Cortex of the Healthcare Brain.

Privacy operations, HIPAA, breach response & AI governance — on Microsoft Azure with Power BI.
 Sister platform to HIP One (Reasoning) and PES One (Engagement) — three platforms, one patent-protected architecture.
 Live across 40+ enterprise clients in regulated industries.

SIX GOVERNANCE DOMAINS, ONE PLATFORM

<p>DOMAIN 1</p> <p>Privacy Program Risk Analysis</p> <p>Continuous posture vs. HIPAA, CMS-0057-F, 42 CFR Part 2, and state AI regulations.</p>	<p>DOMAIN 2</p> <p>Privacy Incident Management</p> <p>Auto-classify, route, and resolve incidents. Replaces spreadsheets and email-chain triage.</p>	<p>DOMAIN 3</p> <p>Breach Response Automation</p> <p>60-80% MTTR reduction vs. manual playbook execution. Notification & containment, end-to-end.</p>
<p>DOMAIN 4</p> <p>Business Associate Tracking</p> <p>BAA lifecycle, sub-processor chain validation, vendor risk scoring — third-party, governed.</p>	<p>DOMAIN 5</p> <p>AI Risk & Readiness</p> <p>NIST AI RMF aligned: Govern · Map · Measure · Manage. Ready for the state AI law wave already crossing legislatures.</p>	<p>DOMAIN 6</p> <p>Policy Enforcement & Audit Trail</p> <p>Audit-grade record on every governance event. Power BI dashboards for officer & board.</p>

THIS MARKETPLACE LISTING
 HIPAA Privacy Program Risk Assessment — Domain 1 of CPS One, available as a discrete consulting engagement on Microsoft Azure.

BUILT ON MICROSOFT AZURE · POWER BI INTEGRATED
 HIPAA · CMS-0057-F · 42 CFR Part 2 · NIST AI RMF aligned · SOC 2 · ISO 27001 · NMSDC
 Genzeon: 10-year Microsoft Strategic Partner · 5 Solution Designations · Cloud-scale analytics native

PRODUCTION SCALE · ACROSS 40+ ENTERPRISE CLIENTS

<p>96%</p> <p>3-year customer retention</p>	<p>76</p> <p>NPS (industry avg: 27)</p>	<p>72%</p> <p>clients with results across 5+ compliance categories</p>	<p>60-80%</p> <p>Breach MTTR reduction</p>
