Geometrid

Supply Chain Monitoring and Analytics for Construction

Achieve complete project visibility

| Prevent Loss and Delays | Avoid Costly Disputes | Remove Inefficiencies |

Geometrid App is built to equip and empower building owners, developers and contractors with the toolset that helps them achieve full visibility to ensure return-on-investment.

Realtime Updates

Monitor and track your building asset status updates as soon as they happen

Across Supply Chain

Customize and control your project supply chain and logistics remotely

Online Interactive 3D

Visualize and analyze your building progress using BIM within a web browser
