

Envisioning the future of Professional Associations

Our experts are here to help you solve key challenges such as:

- Automate your business processes with an integrated system
- Gain visibility and quick access to a 360-degree portrait of your members
- Reduce errors during manual administrative tasks of your staff
- Manage all steps and requirements for admission and process online payment
- Keep control over the profession's practice
- Protect your member's data with the latest cyber security

Lead the Modernization Trend

Professional associations and regulatory bodies face a new transformation era. They need to connect information systems and improve productivity when responding to members who want quick solutions. With new requirements around cyber security, they need to rethink their way of working, in the interest of the public.

How do you imagine your organization's future in this new reality? Lead it with Legio 365, the member management solution for regulatory bodies and professional associations.

Legio 365 has 15 modules and 300 functions to help you transform and simplify your work.

Legio 365 is an all-in-one solution, powered by Microsoft that helps your team interact with, manage, protect, and supervise thousands of members.

How Gestisoft can help.

Gestisoft has advised professional associations and regulatory bodies for 25 years. We help increase staff effectiveness and member satisfaction by cutting time-consuming, repetitive tasks while keeping a holistic 360-degree view of your members. Contact us to hear more about our integrated business solutions.

What is Legio 365 ?

We're proud to introduce Legio 365, a solution for professional associations and regulatory bodies. It handles processes like access to the profession, registry, renewal, discipline, investigation, queries and complaints, courtesy, events, elections, members' web portals, mass messaging, etc. The solution is developed with Microsoft Power Apps business applications and is fully integrated with productivity tools like Microsoft Office, Outlook, SharePoint and Teams.

AUTOMATE ADMINISTRATIVE TASKS

Reduce your administrative tasks of your renewal by 75% with the web portal, the annual declaration, and the online payment of your members.

PLAN TASKS AND ENSURE BETTER CASE PROCESSING

Assign each task to the right team, department, case owner, or investigator, and ensure better follow-up.

QUICKLY ACCESS THE MEMBER'S BILLING STATUS

Check the renewals' status with an overview of bills to pay and renewal deadlines.

Legio 365: the modern solution to overcome your challenges.

Legio 365 is a solution to manage all business processes. It centralizes data so organizations can make better decisions. This includes real, accurate, interactive and live data in up-to-date reports and dashboards.

We've used our experience and the Microsoft platform to build a superior solution. Legio 365 will help you do more with less, faster. By working with us, you can see the ideal solution for modernizing your organization..
