

# Microsoft Copilot for Microsoft 365 Extensibility

What is Microsoft's Copilot artificial intelligence? What does it offer? How can it change our day-to-day lives and practices? What value does it add to our organization, processes and activities? Who is it designed for, and who can start using it?

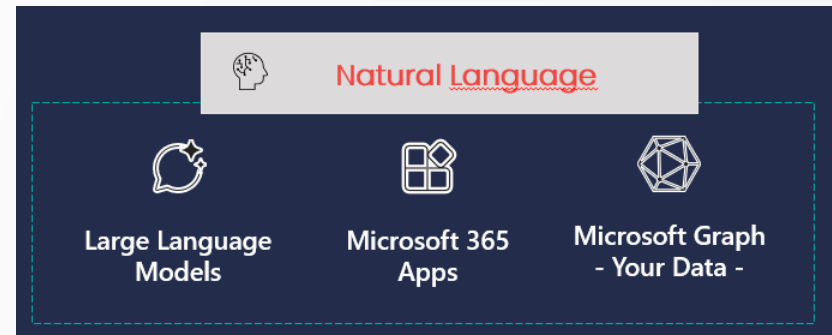

## OBJECTIVES

- Connect data to Microsoft Graph and Dataverse to extend the value of Microsoft Copilot
- Provide integration, customization and configuration services for Microsoft Copilot
- Conduct business application assessments to identify value extension opportunities with Copilot
- Extend the value of Copilot with plugins and connections

## SCOPE & DURATION

- Implementation
- 20 days
