GFT AI Agents Services: Your **Competitive Advantage**

Why can we deliver 3x faster than any competitor?

Proprietary Accelerators

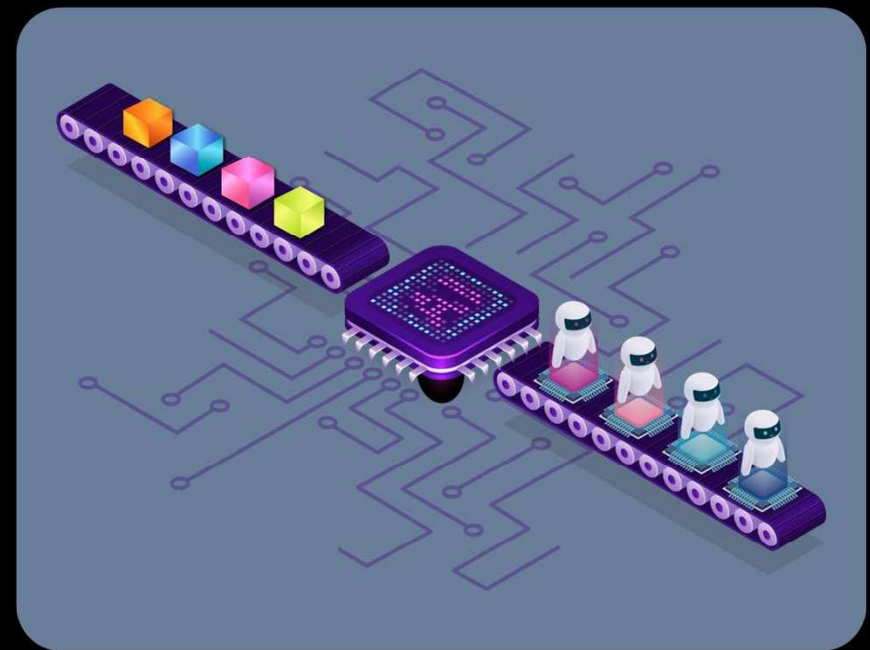

- Library of 200+ pre-tested and certified AI components
- Industry-specific templates that reduce development by 70%
- Automated deployment pipelines across multiple clouds

Global Partnership Ecosystem

- Strategic alliance with Microsoft
- Priority access to resources and innovations ahead of the market
- Native frameworks that integrate seamlessly with platforms

Connected and Scalable Solutions

- Proprietary know-how + cutting-edge technologies
- Fast delivery without compromising quality

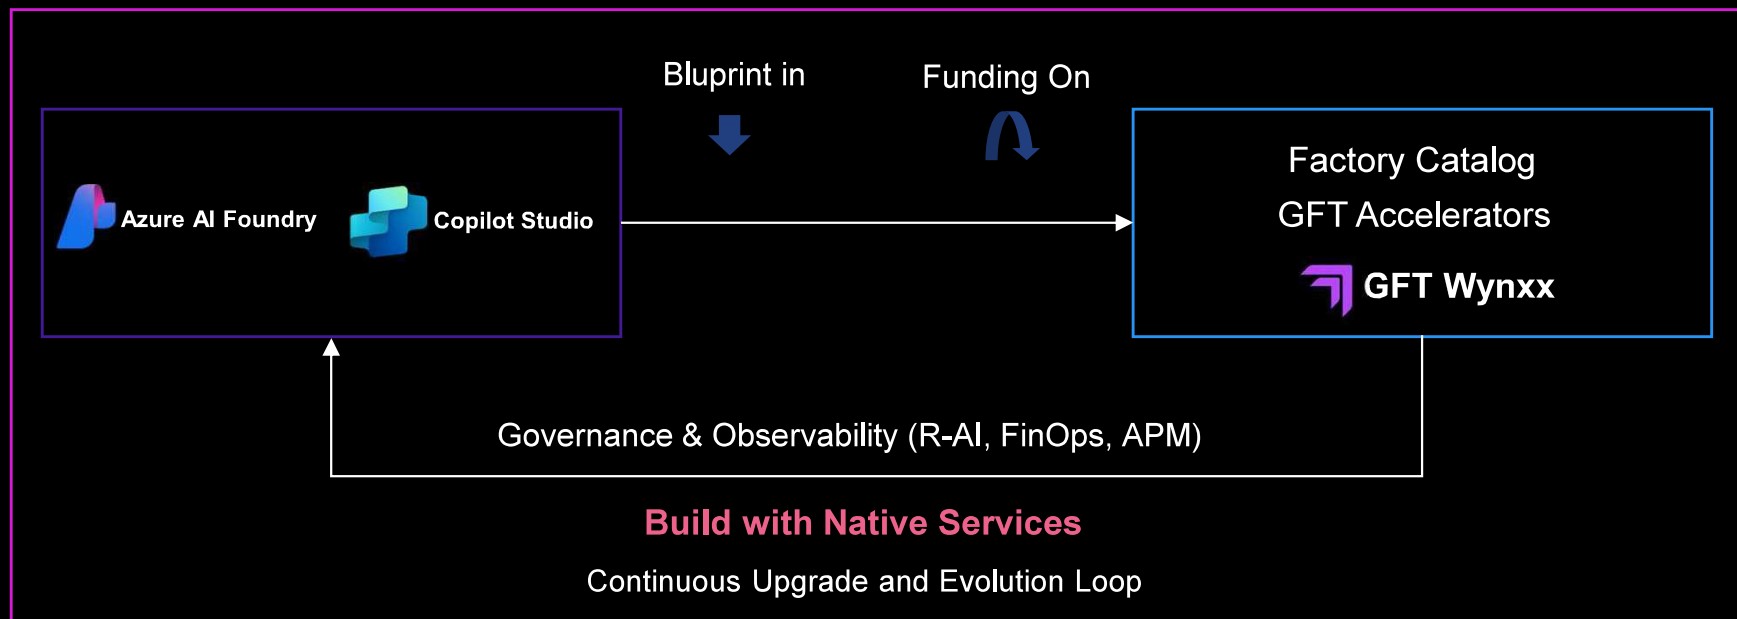

Result: Your agent in production while others are still planning.

Our factory, **Shared Blueprints**

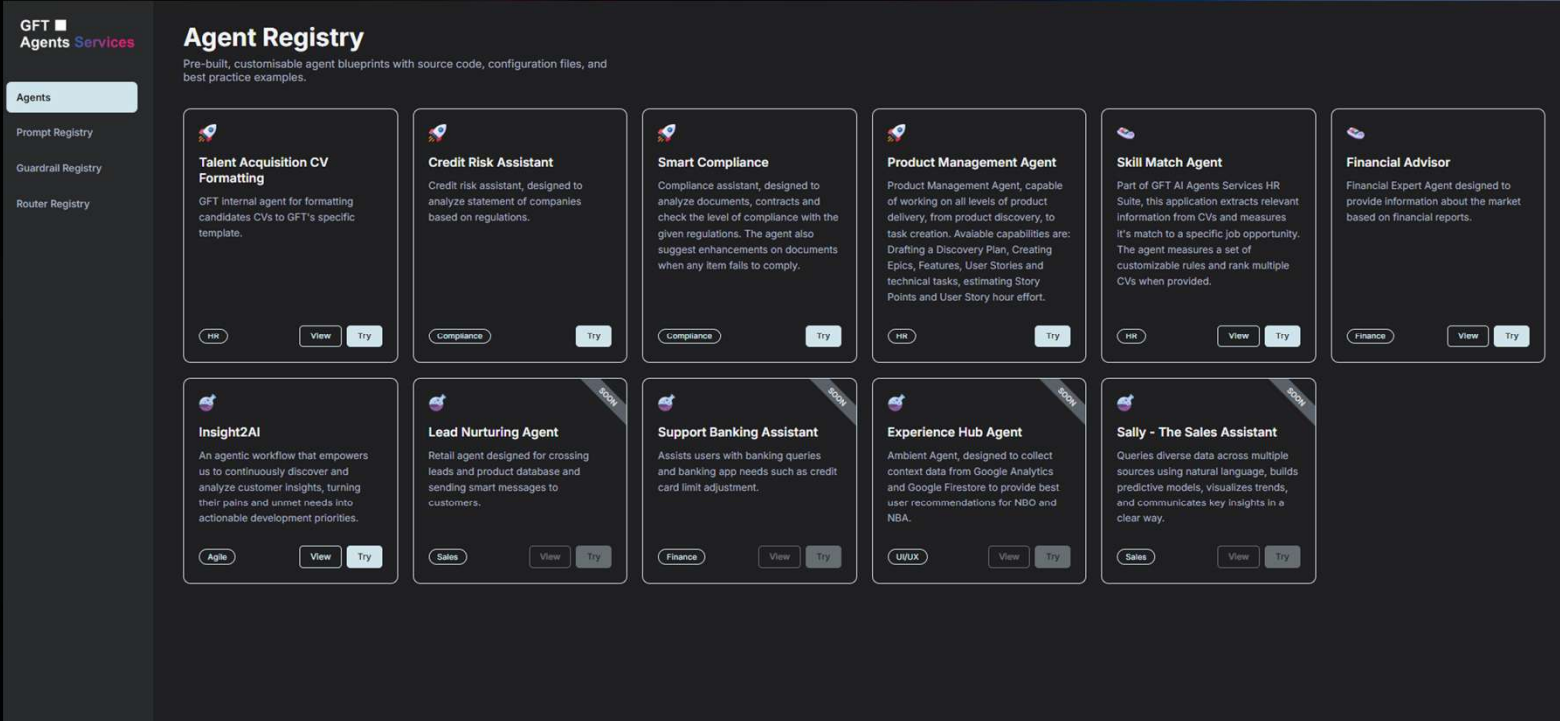

Each agent is born aligned with the provider's best practices.

Partnership with AI Giants is not just commercial; it is coded into our Factory. Official blueprints enter the repository and are converted into accelerators that already speak Native Services. Everything goes up with guardrails of Responsible AI, embedded FinOps, and a continuous upgrade loop — that's why we deliver in weeks, with predictable cost and official support.

Innovation that creates value in our marketplace

Transform data into real impact: accelerate the creation of intelligent agents with scalable innovation in our AI marketplace.
