Gigly Taxi – AI-Powered Ride Booking & Fleet Management

Transform your travel agency into a digital-first operation with Gigly Taxi.

About Gigly Travel

Gigly Taxi is an AI-powered SaaS platform that helps travel agencies, taxi operators, and intercity transport networks digitize operations, manage bookings, track rides, and handle partner payouts — all under your own brand.

Who Benefits

- Small & mid-sized travel agencies

- Regional taxi services

- Intercity transport operators

- Tourism companies managing on-demand rides

Customer Pain Points Solved

- Losing customers to Uber & Ola due to lack of online booking

- Inefficient manual driver assignment and ride tracking

- Delayed settlements and commission payouts

- Poor customer engagement & communication

Key Features

- AI-based ride dispatch & scheduling

- Multi-channel booking: website, WhatsApp, social media

- Driver mobile app with live location tracking

- Partner dashboard for reporting, settlements, and commissions

- LLM-powered customer support for real-time assistance

- Scalable across India, UAE, and other regional markets

Benefits

- Capture more bookings and increase revenue

- Reduce operational costs and manual errors

- Enhance customer loyalty with Uber-like experience under your brand

- Quick deployment, no technical expertise required

Plans & Pricing

- Starter: ₹2,999/month (up to 5 drivers)

- Growth: ₹6,999/month (up to 25 drivers)

- Enterprise: Custom pricing for large fleets or networks

Getting Started

1. Subscribe via Microsoft Marketplace

2. Activate your account and set up your agency profile

3. Log in to the Partner Dashboard to manage bookings & drivers

4. Download the TravelX Driver App for driver operations

5. Enable booking channels: website link, WhatsApp, social media widget

6. Start accepting rides in real time
