

# No-Code Development Platform?

01

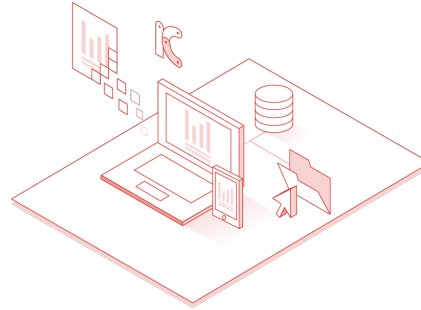

A tool to develop Apps without coding

No tech knowledge

Don't worry about Software

02

Platform to store data, documents and apps in the cloud.

No hardware investment

Don't worry about Hardware

03

An App to use the platform through a **Smartphone**.

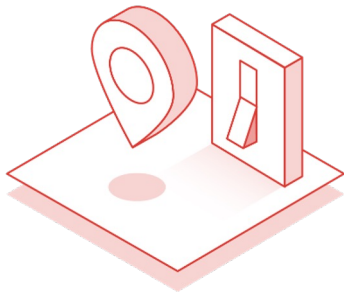

A webApp to use the platform through a **PC**

Don't worry about Users

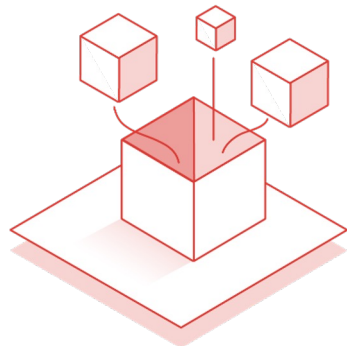

# Gladtolink

The **Only** Multipurpose No-Code Development Platform, with a document manager, a database and a BPM embeded that allows to create APPs, forms and mini-sites.

**SAAS Product** (Software As A Service). Flexible, paid for what it is used, no need to invest time nor money. **Don't worry about money**

## NO-CODE Philosophy

1. Do everything without coding. **Don't worry about software**
2. No tech hardware. **Don't worry about hardware**
3. Smartphone, Tablet and Computer. **Don't worry about users**
