

# THE AUGMENTED & CONNECTED WORKER PLATFORM

## GLARTEK OVERVIEW

# THE AUGMENTED & CONNECTED WORKER (ACW)

HOW DOES THE SOLUTION WORKS?

Glartek is focused on the intersection between the **Augmented Worker** and the **Connected Worker** to create digital products that improve the work of frontline workers as well as their managers and executives.

## CONNECT YOUR TEAM | Digitize & Manage Operations

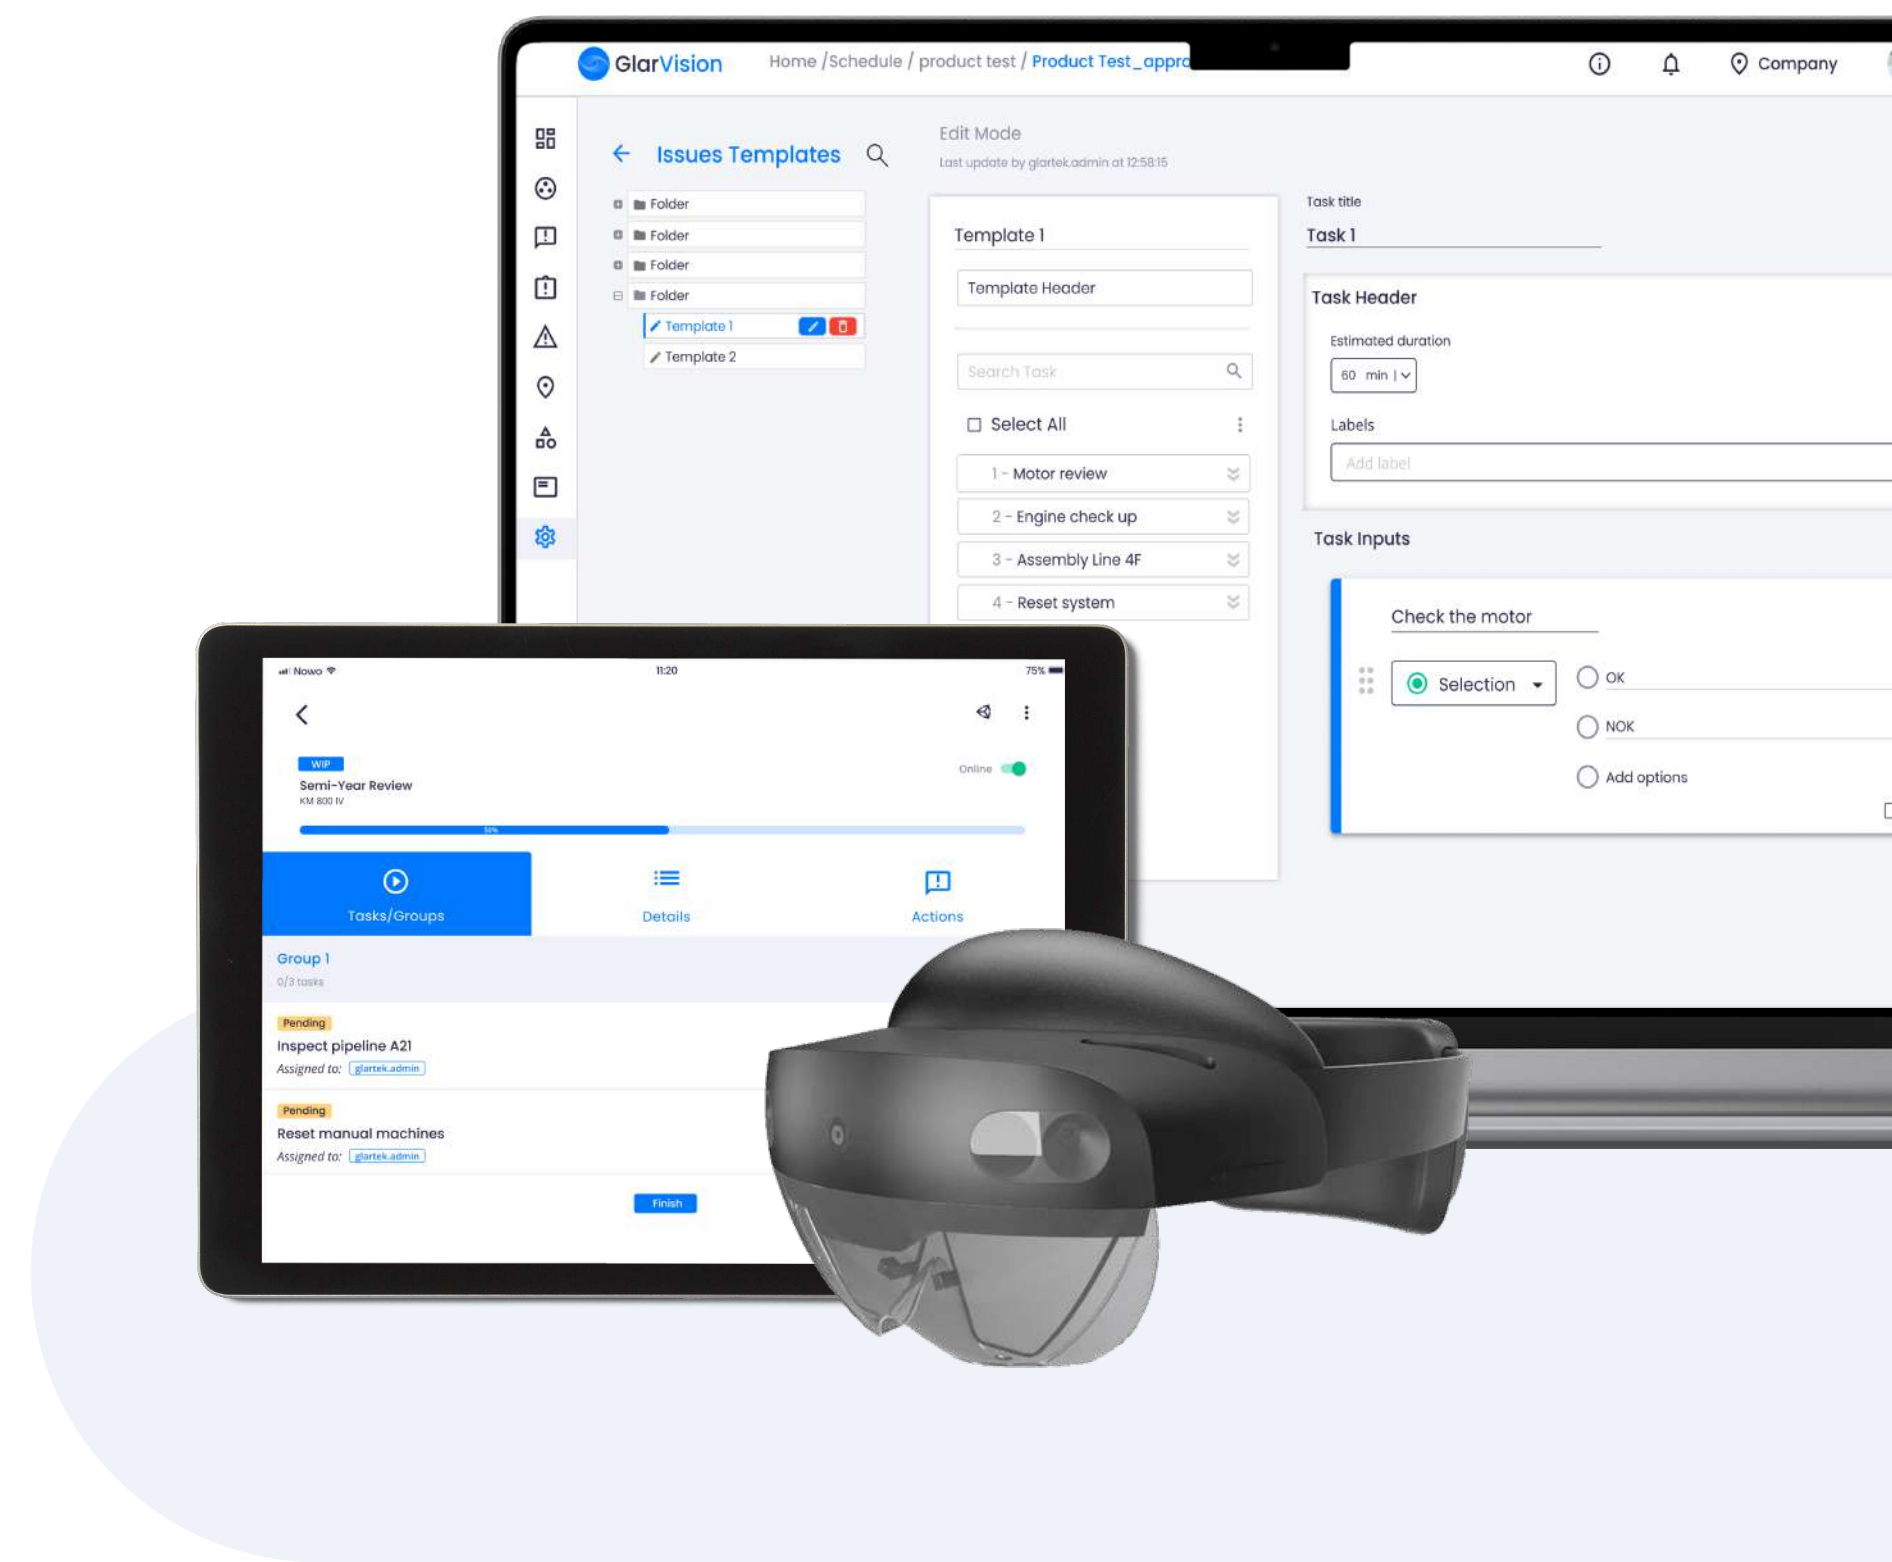

Digitize procedures and manage tasks, people and procedures in a no-code backoffice, supported by an agenda, notification system and alerts.

## AUGMENT SKILLS | Support An Efficient And Safe Execution

Make mobility intuitive with the support of digital work instructions and checklists on your frontline team devices.

## IMPROVE CONTINUOUSLY | Access Analytics In Real-Time

Access operational data in real-time to ensure that continuous improvement is key in your industry.

## FEATURES OVERVIEW

### MOBILE APP

- | Direct collaboration between frontline workers & remote experts
- | In-app digital workflows and work instructions
- | 2D and Augmented Reality-based digital checklists

### ADMIN BACKOFFICE PLATFORM

- | Customized digital instructions and checklists through a no-code platform
- | Data tracking to identify opportunities across teams, sites, regions, and more
- | Remote collaboration between front-line workers and experts
- | Automated reports, dashboard & analytics generated using work records to access the exact information needed
- | A connected system that fully integrates with ERP, MES, CMS, and more

# THE AUGMENTED & CONNECTED WORKER (ACW)

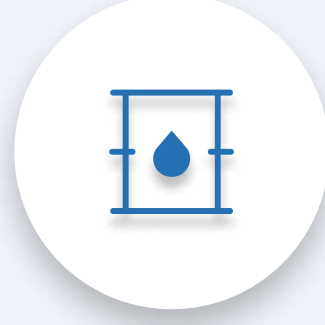

WHO BENEFITS FROM THE SOLUTION?

Manufacturing

Utilities

Oil & Gas

Paper & Pulp

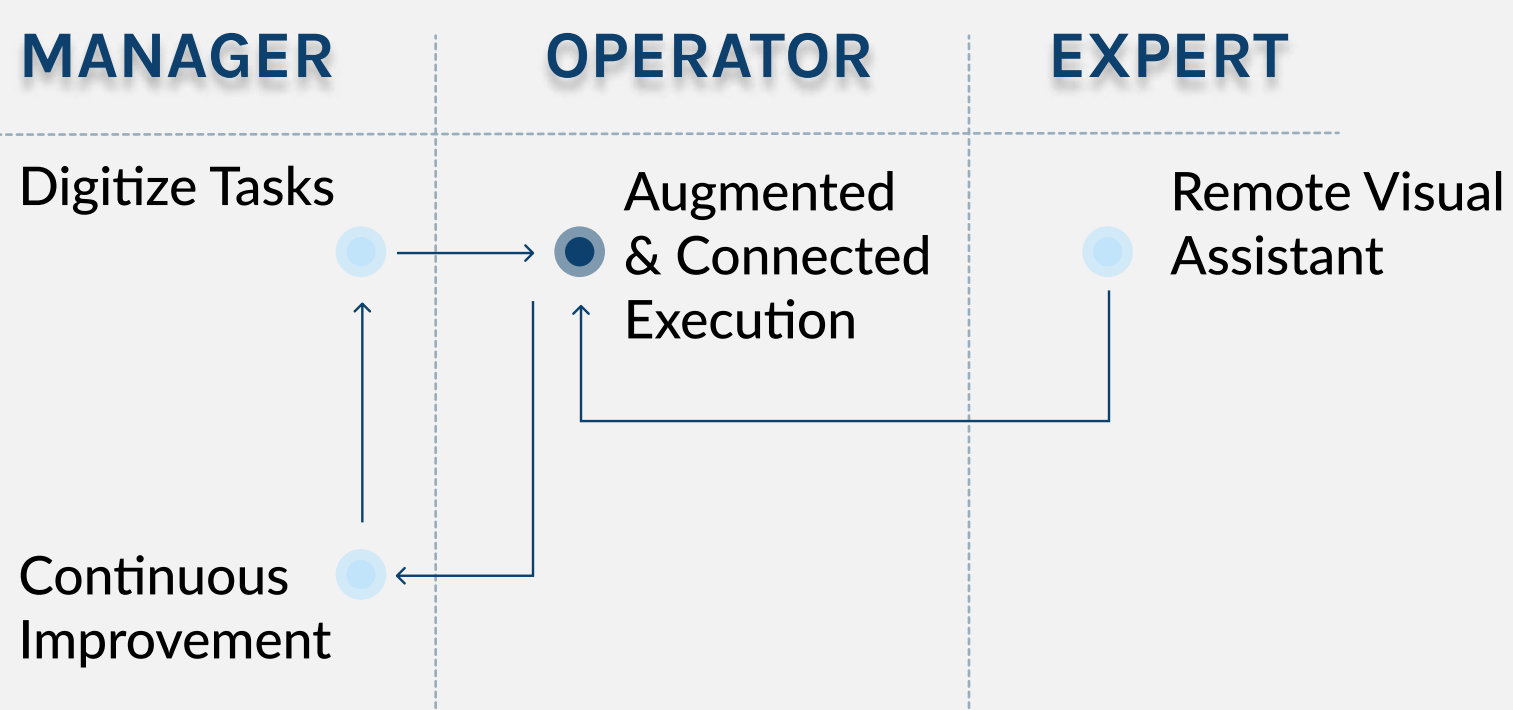

Pharmaceutical

Food & Beverage

## THE ACW BY TEAM ...

The Augmented & connected Worker platform enables a collaborative team where all departments benefit from. Either you are in operations, IT, Continuous Improvement or the company CEO, the ACW will enable a better work environment and tools.

## ... AND BY ROLE

As a director, manager or frontline worker, the platform impacts everyone. With the Glartek Augmented & Connected Worker, industrial companies can create a future-proof cycle of digitization, connected, and augmented execution with a continuous improvement mindset.

## THE ACW MAIN USE CASES

Digital work instructions & checklists

Task Management

Visual Remote assistance

Knowledge management

Training and skills management

# WORLD'S LEADING AUTOMOTIVE MANUFACTURER REDUCED ERROR TO 0% WITH AN AUGMENTED & CONNECTED WORKFORCE

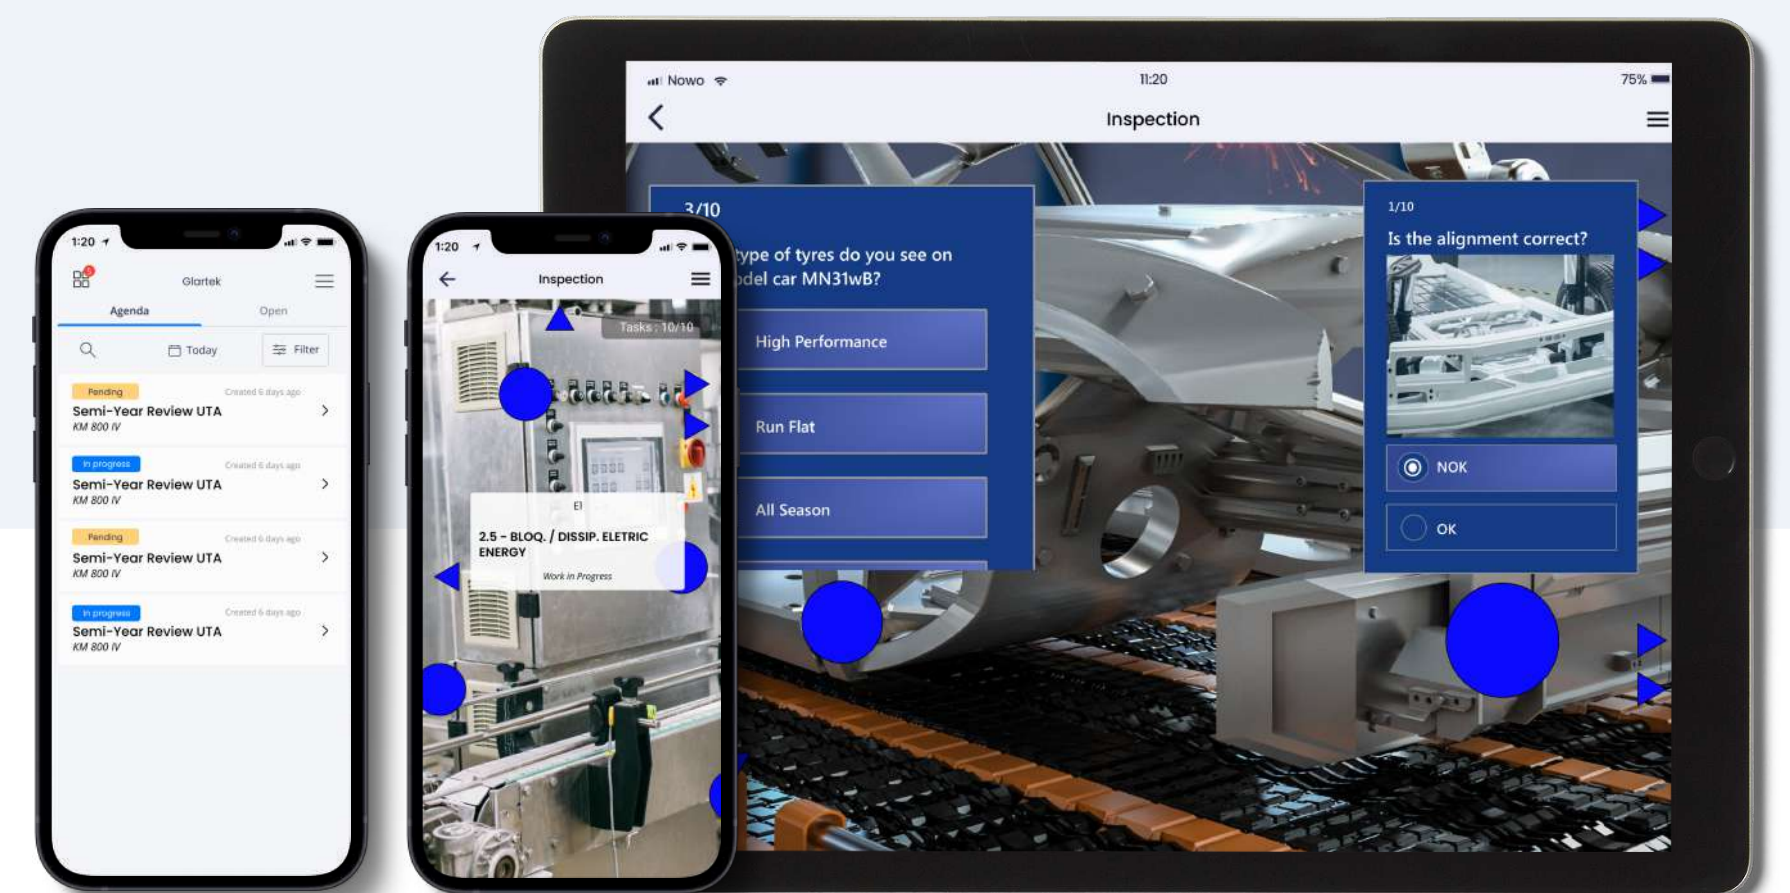

## CHALLENGE

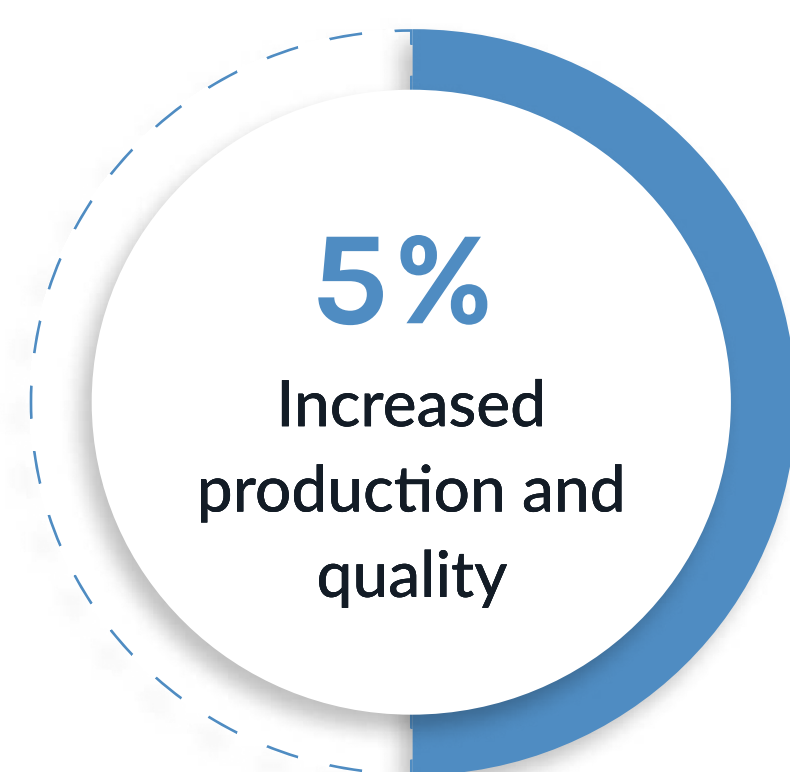

- 1 Inefficient planning and production
- 2 Frequent and avoidable production errors
- 3 Lengthy training

## SOLUTION

- 1 Desktop interface to create SOPs
- 2 Monitoring and management capabilities
- 3 Mobile app and station screen
- 4 Augmented Reality training

GlarVision helped us increase our overall efficiency and quality KPIs. Digitizing our SOPs on the platform allowed us to quickly perform updates and react to changes, which were promptly communicated to the shop floor. The Augmented Reality support is a useful capability to help train our operators.

## | RESULTS

3%

### Production Increase

Automotive manufacturer increased parts output and efficiency.

### Fewer Operators

Utilities company reduced the number of technicians and shadowing.

25%

0%

### Error Rate

Paper & Pulp company achieved full compliance and error-free safety tasks.

### Faster Training
