

HIGHWAY TO APPSOURCE by **Global Mediator is a comprehensive service for publishing your app in the AppSource marketplace in a 10-DAY PERIOD**

We provide a flexible range of services depending on the exact scope of assistance you need.

STANDARD PACKAGE

(Fixed Price – 2800 Euro) is a key package of obligatory steps that precede launching your product on MS AppSource. It includes:

- Precise estimation of our team's efforts considering your custom needs
- First code check with an individual plan of further steps to meet the requirements from Microsoft
- Marketing assistance: preparation of the documentation required by MS AppSource: a short description of your offer, details, keywords, screenshots, and more
- Design issues (logo, etc.)
- Maintaining the Microsoft validation process
- Publishing of the offer

EXTENDED PACKAGE

(price – depending on your needs). The package includes all the points from the Standard Package and implies extra input from the Global Mediators team. The scope completely depends on your needs.

- Software development services to pass the technical validation process from MS and meet the requirements of the marketplace. It may also include code review and Subscription module development to create the admin center for managing subscriptions.
- QA services (manual or/and automated testing to fix any warnings and errors)
- Maintenance service (migration and/or upgrades for the existing customers, as well as the support of the offer or testing of your app according to the Microsoft releases, etc.)
- Creation of additional documentation (knowledge base, user manuals, etc. E.g., [Solutions](#))
