

A product's first impression matters.
Get it right by **testing smarter, not harder.**

94%

of a product's first impression is related to visual aspects.

Over two-thirds

of customer loyalty is driven by a good user experience.

67%

of users say that a poor experience negatively affects their opinion of a brand.

With more options at their fingertips than ever before, customers are prioritizing user experience when choosing products. There's no second chance to give a great first impression. For businesses to meet users' expectations, especially in a visually-driven culture, offering a visual-perfect experience is a must.

It's time to take visual testing to the next level.

MagnifAI leverages the power of AI to **improve and simplify quality assurance in complex visual testing scenarios.** It helps businesses meet customers' expectations with a **visual-perfect experience** while improving quality, lowering costs, and reducing time-to-market.

Product quality improvement

Time-to-market acceleration

Cost reduction

Easy implementation through Plug-n-play

Integration with traditional automation frameworks

Democratized testing with our GUI
