

Viva Private Insights Kick-Start

glueckkanja-gab AG

glueckkanja-gab AG is the merger of the two companies Glück & Kanja and GAB to form a Cloud Managed Service Provider. Both companies have been among the leading IT consulting companies and top partners of Microsoft in Germany for over 20 years. We were once again able to occupy top positions in the ISG 2021 study and, with over 10 Gold certifications, can offer all Microsoft cloud technologies with far above-average expertise and experience. With over 250,000 managed clients at many enterprise customers such as DB Schenker, EnBW and Uniper, as well as hundreds of medium-sized customers, glueckkanja-gab is at the top worldwide and also has excellent networks within the Microsoft Corp product groups in Seattle and Israel.

WHAT WE OFFER

As part of the Microsoft Viva Employee Experience Platform Viva Insights focuses on the wellbeing of the employee. We help you to understand the privacy measures and configuration options Microsoft implemented.

The Teams App can be an important building block to drive adoption of the future workplace with:

- Stay Connected
- Praise
- Focus Time
- Virtual Commute

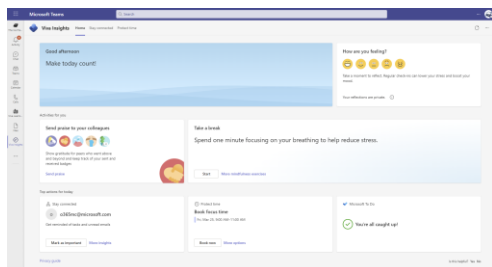

It promotes new ways of work, whether remote or in the office.

Inside Outlook Viva Insights helps to organize the day-to-day work with a dedicated add-in, inline recommendations and briefing e-mails. We help you to understand, how configuration options affect the Viva Insights functionality inside Outlook.

How to work with the Viva Insights dashboard, use customization options and Opt-In or Opt-Out.
