

GUID generator

Online tool that generates GUID(s) (globally unique identifier(s)), configurable braces, hyphens, casing, or number format. Can produce multiple at once..

A screenshot of the gguid website interface. The header shows the gguid logo, a "Home" link, and a "Share" button. The main heading is "GUID generator" with the subtitle "generate a globally unique identifier". The form includes a "Format" section with checkboxes for "Braces", "Hyphens" (checked), "Uppercase", and "Hex". A "Count" input field is set to "1". A "New Guid(s)" button is to the right. Below, the "Your GUID" section shows the generated GUID "2f1a1ff5-d890-4480-8afd-33805e83f60f" with a "Copy" button. At the bottom, there's a section "Our other tools:" with links to various utilities like Punycode converter, HTML cleanup tool, HTML fixing tool, HTML encoder, URL encoder, Base64 encoder, Hex encoder, C/C++ string escaper, and C# string escaper. Footer links include "About", "Facebook", "Twitter", "Terms", and "Privacy".
