# Dynamics 365 Implementations and Team

- Projects in >25 countries.
- Experienced consultants and project managers.
- Competencies cover whole D365 platform including ERP, CRM, Power Apps, integrations and other technical services.

# Evaluate and enhance your business processes with our Rapid Application Assessment service

GO-ERP has a proven record of helping our clients leverage the Microsoft Power Platform to enhance and extend their Dynamics 365 functionalities.

With Microsoft Power Apps:

**Customize and extend your  
Office 365 and Dynamics 365  
systems**

**Easily build apps for your own  
company, industry, specific roles,  
or even for specific geographies**

**Analyze data, automate processes,  
engage with your customers via  
intelligent chatbots and much more.**
