SOLUTION VALUE

- ✓ Saves time
- ✓ Cleans up the system
- ✓ Eliminates chances of working with fraudulent customers
- ✓ Reduces the stress of manual address fill-in process

VALIDATING VAT NUMBER WITH VIES

Go-ERP developed VAT number validation solution that lets you quickly and conveniently validate any legal entities. This quick and powerful solutions will eliminate the need to use an external VAT number validator saving users time by having it all on the same platform. Users will be able to automatically prefill address fields on the form and manually edit them if needed.

The screenshot displays a web application interface with a modal dialog box titled "Company VAT number is correct". The dialog contains the following information:

- Address: Lazdynėlių g. 12-9, Vilniaus m., Vilniaus m. sav.
- Account Name: GO-ERP, UAB

Below this information are five input fields for user editing:

- Account name: GO-ERP, UAB
- Street: Lazdynėlių g. 12-9
- City: Vilniaus m.
- Zip code: (empty field)
- Country: Lithuania

At the bottom right of the dialog are two buttons: "OK" and "Cancel". The background of the application shows a "Qualify" section and a "Developer" profile icon.

ADDRESS **AUTOCOMPLETE**

To save users' time the solution is meant to **autocomplete and fill in** legal entities' address information.

As the user starts typing part of the legal entities' name, the solution will **narrow down and predict** company name and fill in the company's address information minimizing amount of keystrokes.

The screenshot displays a web form titled "All-In-One Address Lookup". It contains several input fields: "VAT Number" (with a placeholder "---"), "Company Search" (containing the text "go-erp"), "CONTACT" (a section header), "Topic" (with a red asterisk indicating a required field), and "First Name" (with a plus sign indicating an expandable field). A dropdown menu is open below the "Company Search" field, showing five suggestions, each preceded by a location pin icon. The suggestions are: "Shop & Go Erpe-Mere Gentssesteenweg, Erpe-Mere...", "GO-ERP, UAB Pilaitės prospektas, Vilnius, Lithuania", "ERP etiquetas Jardim Presidente, Goiânia - GO, Brazil", "GO ERP Sp. z o.o. Słowackiego, Tarnów, Poland", and "GO ERP Technopark Campus, Thiruvananthapuram, K...". At the bottom right of the dropdown, it says "powered by Google".

COUNTRY LOOKUP

Small but handy addition to the solution, will allow user to autocomplete country name by entering country code or part of the country name.

BATCH VAT NUMBER VALIDATION

With few keystrokes user will be able to scan through all or selected few records in the system validating their VAT numbers, updating address information saving hours or even days of work.

The screenshot displays a web application titled "All-In-One Address Lookup". It features several input fields: "VAT Number" (with a placeholder "---"), "Company Search" (containing "go-erp"), "CONTACT" (with a sub-field "Topic"), and "First Name" (with a placeholder "---"). A dropdown menu is open from the "Company Search" field, listing five results, each preceded by a location pin icon: "Shop & Go Erpe-Mere Gentssesteenweg, Erpe-Mere...", "GO-ERP, UAB Pilaitės prospektas, Vilnius, Lithuania", "ERP etiquetas Jardim Presidente, Goiânia - GO, Brazil", "GO ERP Sp. z o.o. Słowackiego, Tarnów, Poland", and "GO ERP Technopark Campus, Thiruvananthapuram, K...". The text "powered by Google" is visible at the bottom right of the dropdown. The entire interface is framed by a green border.
