

Planet is Your Pilot for Copilot

Navigate AI with The Copilot Readiness Program

Revolutionize the Productivity of Your Organization

By combining the power of large language models with your organization's data, Microsoft Copilot turns words into one of the most powerful productivity tools on the planet. Working alongside popular Microsoft 365 apps, Copilot provides real-time intelligent assistance, enabling users to enhance their creativity, productivity, and skills.

Planet's Copilot Readiness Program for Government

To empower government agencies with the transformative capabilities of Copilot, Planet has developed a Copilot Readiness Program that prepares government organizations to adopt and deploy Copilot in a structured format. Planet's Copilot Readiness Program includes a licensing review, prerequisites enablement, and use case workshops.

Each workshop consists of an educational discussion on what it means to be AI-ready, including demonstrations on how the employee experience is transformed. Within these workshops, we work together to provide:

- ☑ Visioning and Requirements Review
- ☑ Security and Compliance Review and Design
- ☑ Organizational Change Management and CoE Support
- ☑ Using Graph Connectors and Plug-ins
- ☑ Microsoft Copilot Proof of Concept

The output of the workshop is a custom solution plan for prioritized Copilot scenarios to include personas, identified sponsors, KPIs, risks, and next steps, as well as a strategy to support organizational change management that includes an adoption planning workbook.

About Planet

Planet Technologies is a leading provider of Microsoft professional services to the public sector. Proudly supporting U.S. government agencies, educational institutions, and the Defense Industrial Base for 25 years, Planet delivers subject matter expertise in the areas of IT modernization, digital transformation, artificial intelligence, security and compliance, and training and adoption. With Advanced Specializations and 27 Partner of the Year awards, we are experts across the Microsoft stack.

Contact us at info@go-planet.com to learn how you can solve your next business challenge using the Microsoft solutions you already own.
