

## Teams Voice Pilot

Our Microsoft Teams deployment is tailored to empower organizations with seamless communication and collaboration capabilities. We leverage a three-pronged approach to ensure maximum flexibility and functionality with the telephony solution.

With Microsoft Calling Plan, we provide a cloud-based, scalable telephony solution that's native to Teams, perfect for businesses looking for a simplified, integrated option.

For those organizations wishing to utilize their existing telecommunication infrastructure or require more customization, our Direct Routing capability bridges the gap, connecting your on-premises voice infrastructure to Teams.

Lastly, Operator Connect offers a harmonized experience, integrating leading telecommunication operators directly within the Teams interface, ensuring that external calls are as intuitive as internal chats.

Our goal is to fully assist your organization to evaluate the value of adding Microsoft Teams Voice to your service portfolio.
