

## Viva Insights in the Box

Having a diagnostic of behaviors when it comes to analyze signals like emails, chat, meetings to better align the organization in new ways of working needs to:

- Inject your HRS data to segment users by categories (departments, roles, regions...)
- Manage dashboard permissions to allow appropriate employees to analyze or access to data
- Build custom dashboard to drill down certain data
- Deploy Viva Insights to the appropriate users (who can see what)
- Educate users on how to use dashboards (how to navigate in the dashboards)
- Educate managers on how to leverage dashboards (what best practices)

### The Planet Advantage
