

Secure Windows 365: Deployment and Securing Windows 365

This offering deploys and enables up to 5 (five) Windows 365 Cloud PCs configured with Management and Security capabilities using Microsoft Intune and Microsoft Defender for Endpoint. Basic security and management policies are included with this offer.

This greatly improves the security posture and manageability of the Cloud PC and lends itself to future integration with critical workloads or protected data sources.

Included in this offering is a 2-hour workshop to develop and manage 1 (one) custom image with 1 (one) added application beyond the Operating System.
