WINDOWS SOLUTION BUILDER PROFILE: Golden Five Consulting

Golden Five was created to provide exceptional service to clients in a cost affective manner. Our highly skilled team of Certified Technical Experts, Microsoft MVPs, Professionals, Experienced and Knowledgeable Staff, and dedicated Architects willing and ready to help you, our partner with your Microsoft needs.

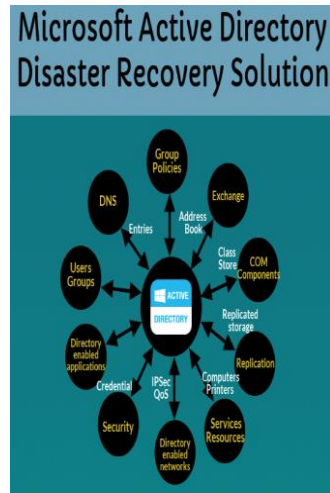

WHAT WE OFFER

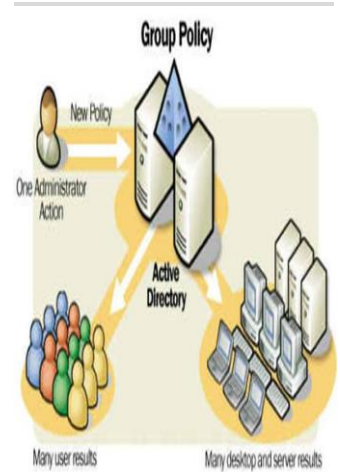

Experts in Windows Active Directory migrations. Active Directory is a backbone of any organization & a single wrong move can stop all operations. Experienced on multiple migrations, inter & intra forest migrations to windows 2012 or 2016 Active Directory for all servers, users, computers and other AD objects. ADMT and MIM are the great tools for these migrations

Windows SBS comes with multiple applications together including SQL, Exchange, Active Directory, SharePoint, RDWeb, RDGW etc, all in one server. Organizations deployed Windows SBS, later decided to move to windows server. We have successfully migrated many customers from SBS to windows 2012 by separating applications to multiple servers.

Active Directory single object, single container, single domain controller or forest disaster recovery. We are the expert and practiced Active Directory disaster recovery including full AD Forest Recovery. We have been part or multiple ADRAP and run all the tests required to run ADRAP for customer AD health checks and remediation.

Active Directory Group Policy has too many configurations which are required for any organization to be managed smartly. Our expertise has reduced number of GPOs from 3000 to 150, by properly configuring preference features. Our expertise and knowledge has allowed us to make the login process quicker

WHAT OUR CUSTOMERS ARE SAYING

"Golden Five ROCKS. Their experience and knowledge were impressive and it saved us a lot of time. They were very methodical, they have their own exhaustive check-list of everything you need to know about before making a change. They saved our butts! They are very professional and very personable, we truly trust them unequivocally. We strongly recommend Golden Five Consulting.

KEY USE CASES

MOBILE POINT OF SALE

Windows 10 is the right platform to build the intelligent devices you need. Easily enable a mobile point of sale and create the internet of your things.

SEAMLESS 2-IN-1 EXPERIENCE

Run in desktop or tablet mode on 2-in-1 devices, seamlessly switching between type and touch inputs.

SINGLE SIGN-ON

Need to provide simple access to a multitude of devices? Use a single MDM solution to manage your team's devices. Or, use one log-in across Windows, OneDrive, and Office 365 with Azure AD join.

COLLABORATE AND SHARE

Windows 10 makes it easy to take notes in Microsoft Edge, and it also enables integration with additional devices. Whether you're using a virtual whiteboard or a smart TV powered by Windows, you can collaborate and share notes, files, and more.

PROTECTION FROM MODERN SECURITY THREATS

Enterprise security threats are on the rise. Windows 10 delivers entirely new ways to protect your systems and data. With features like Windows Hello and Microsoft Passport, we make it easier to adopt biometrics and multi-factor authentication. Windows 10 also has built-in defenses to help protect your critical business information from leaks or theft, while separating corporate from personal files.

CONTINUOUS INNOVATION

Now you can deploy and manage Windows more efficiently, and receive the latest innovations faster. Through the Current Branch for Business deployment schedule and the new Windows Update for Business service, you have the flexibility you've been looking for. Together these help reduce management costs, provide controls over update deployment, and offer fast access to security updates from Microsoft on an ongoing basis.

PRODUCTIVITY YOUR TEAM WILL LOVE

Windows 10 is familiar, and better than ever. With welcome similarities to Windows 7, including the Start menu, your team will feel like experts right away. New features like Continuum and Microsoft Edge provide new, innovative productivity experiences only available on Windows 10.

INNOVATIVE DEVICES FOR YOUR BUSINESS

With Windows 10, you can choose from a compelling lineup of business-ready devices, delivering innovations like hardware-based security, touch and pen input, and new, 2-in-1 devices.
