

Generative AI Academy

Our Gen AI Academy delivers high-impact solutions, coupled with advanced technology, empowering your teams to boost efficiency and productivity.

Our Academy Encompasses Three Pillars:

1

BLENDED LEARNING PROGRAMS

Gen AI courses combining online and instructor-led delivery, with special focus on Agentic AI application

2

GEN AI PLAYGROUND & STUDIO

Secure platform to refine prompt engineering skills and create organization-specific use cases

3

INTEGRATED AI-POWERED TOOLS

AI Mentor and AI Teacher to support learners through their journey and optimize learning outcomes

1. Blended Learning Programs

Sector and function-specific training for employees across levels

Foundational Skills

With Gen AI playground that enables “learning by doing”

Audience	Program
All Employees	Gen AI Awareness Workshop <i>To build Gen AI fluency, encourage adoption, and ethical use</i>
Non-Tech Functional Teams	No-Code Prompt Engineering <i>To help solve business problems using no-code prompting</i>

Practitioner Skills

Audience	Program
Software Developers	Gen AI Bridge Course <i>To improve developers' efficiency and productivity using Gen AI tools</i>
Technical or Technical-Adjacent Roles <i>(Developers, Product Managers & Data Scientists)</i>	Level 1: Gen AI Expert Bootcamp <i>To design and implement production-grade Gen AI applications using frameworks and tools</i> Level 2: Architecting Agentic AI Systems <i>To design and implement advanced agentic workflows using agentic design patterns</i>

Executive Skills

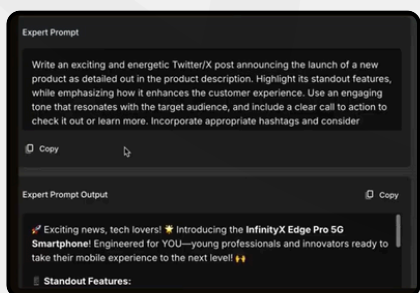

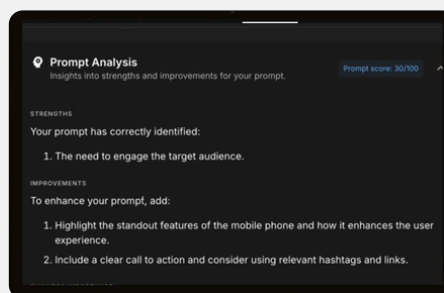

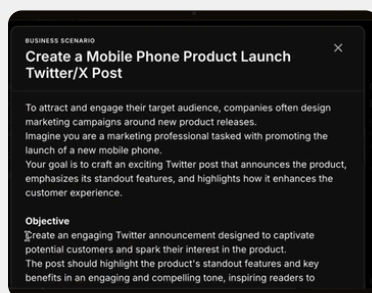

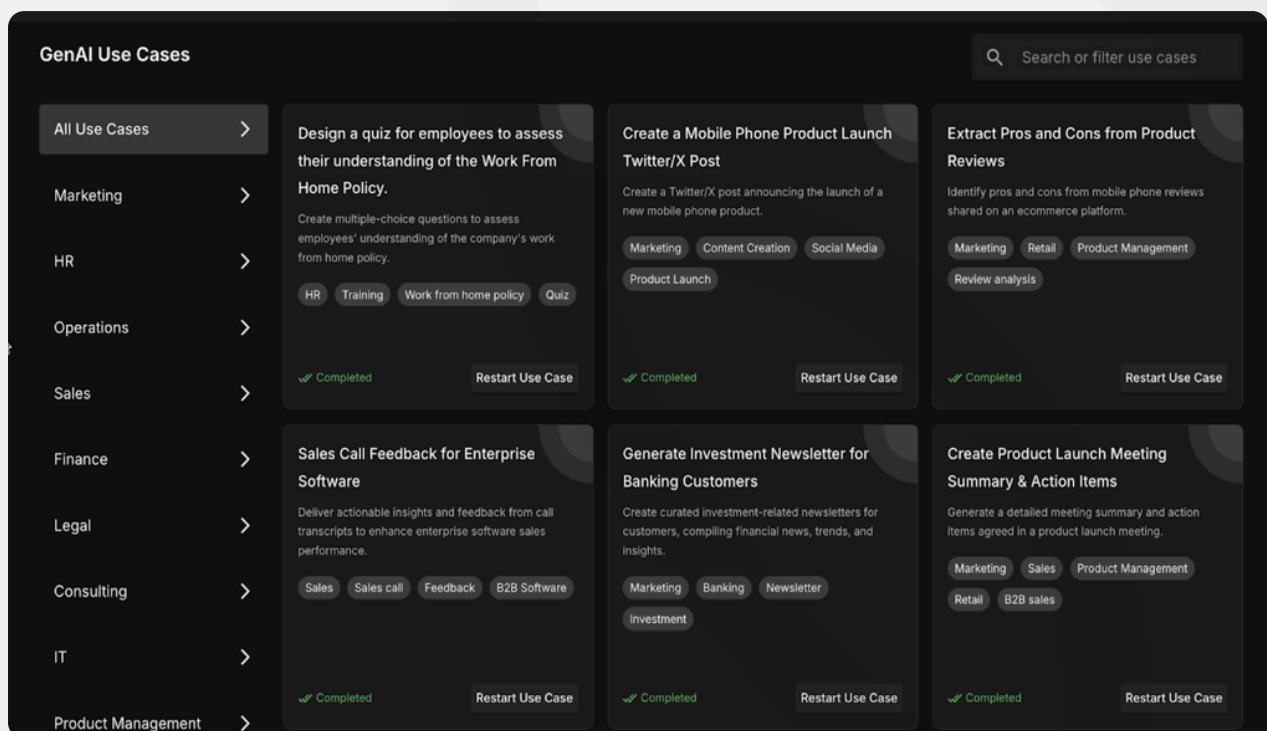

Audience	Program
Business Leaders / CXOs	Gen AI Strategy for Leaders <i>To lead and scale Gen AI adoption responsibly for impactful business strategies</i>

2. GenAI Playground & Studio

Platform empowering employees to master prompt engineering

- Delve into targeted scenarios for key business functions

- Explore domain-specific applications of GenAI
- Iterate and get instant feedback to write better prompts
- Access high-quality expert prompts

3. AI-Powered Innovations

Investing in AI features to optimize learner outcomes

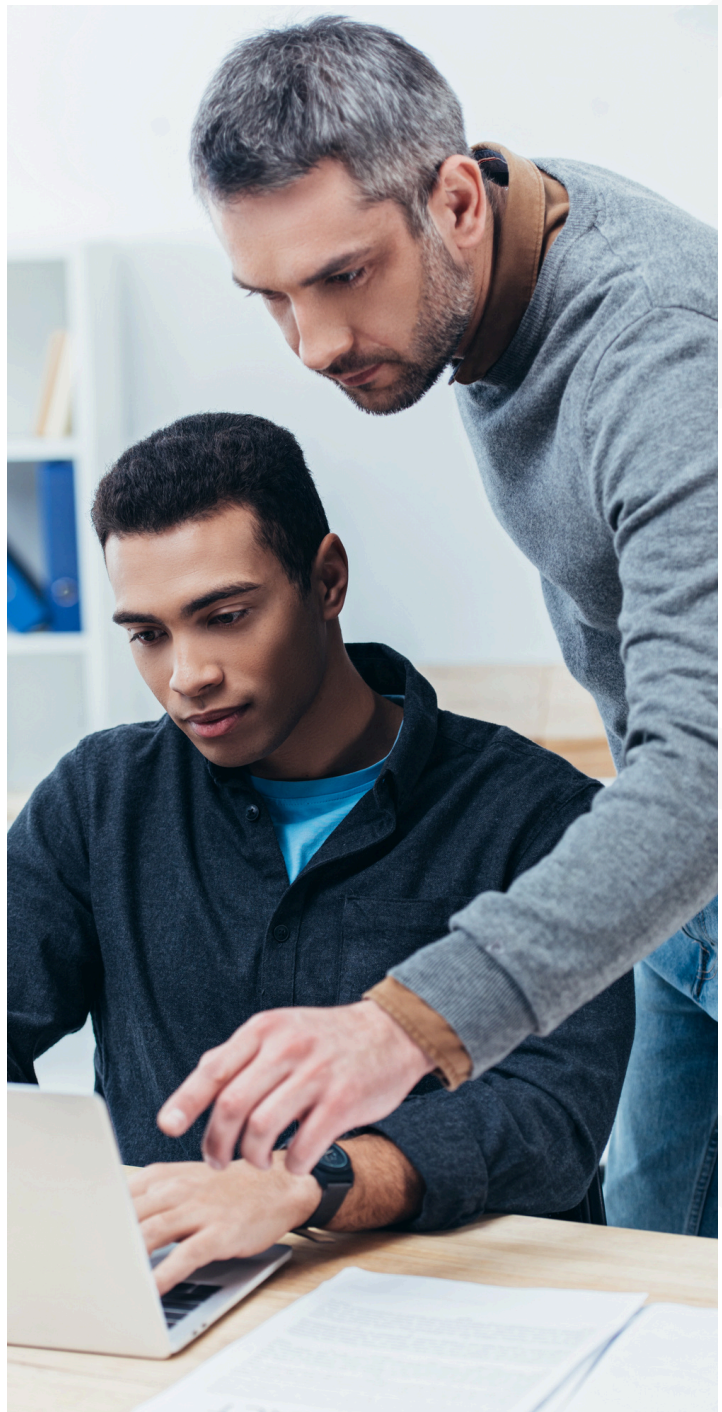

AI Mentor

Empowering learners with a personal learning coach to support them through their learning journey at every step.

- ✓ Coding Assistance
- ✓ Project Guidance
- ✓ Instant Doubt Resolution

What's Next?

- **AI Teacher**
An adaptive voice-based instructor
- **Auto-evaluation**
of project submissions

Organization-Specific Customizations

White label the platform per the organization

Leverage a sandbox environment to protect user input from external internet access and public LLMs

Monitor learners' progress using admin dashboards

Select the preferred LLM as the backend engine

Utilize the Gen AI Studio to create custom organization-specific AI use cases
