Generate audit reports

**Power Apps**  
Application development

**Power Automate**  
Workflow automation

**Power BI**  
Business analytics

## Leverage the capabilities of Power Automate

---

- Data connectors to business apps and data
  - Role-based security using Azure Active Directory
  - Integration with M365 SharePoint, Teams, Exchange
  - Enhance processes using low-code AI
- 
- A background graphic on the right side of the slide features a network diagram. It consists of numerous white circular nodes of varying sizes, interconnected by thin white lines. The nodes are arranged in a complex, somewhat circular pattern, with some nodes being more prominent than others. The overall effect is a sense of connectivity and data flow, set against a dark orange gradient background.
