

An easy to use Carbon Accounting Platform delivering accessible sustainability insights and actions for Small and Medium Businesses (SMBs)

Helping you spend more time reducing emissions, not measuring them

Best-in-class carbon accounting for SMBs in minutes, not months

Instantly generate audit-ready Greenhouse Gas reports for anyone asking for them

Integrations with over 12,000+ utilities, and accounting softwares for easy data collection

User-friendly, intuitive dashboards with all essentials in one convenient location.

Dedicated sustainability manager to help you on an ongoing basis

Fast and efficient onboarding process averaging 15 to 20 days

Green Project is trusted by over 450 companies across 30 countries
