⬛ greymatter®

Services, who are we?

We provide tailored IT solutions and services that empower organisations to exceed their business goals. Our priority is to help every partner benefit from the efficiencies and flexibility that the cloud offers.

At Grey Matter Services, we understand that for you to be able to grow your business you need to be able to scale seamlessly, drive down costs and increase revenue. How do you do this? One of the easiest ways is to use cloud technologies.

We know how to enable businesses to get the most from cloud technologies. We empower our partners and their customers so that they can scale faster and more efficiently to meet demand and deliver more, whilst also saving time and money. We are able to advise on the best cloud and hybrid solutions to meet individual needs, lend a helping hand to migrate legacy systems and secure your IP on the cloud. Whatever your needs are we can help kick-start your business growth.

What Services Do We Offer?

At Grey Matter Services we offer you a range of transformational migration, re-architecture and security services that will help your business achieve and exceed its goals. Including:

- Solution design and cloud pipeline
- Support, health checks and compliance
- Migration and deployment
- Hybrid infrastructure and identity integration
- Backup and disaster recovery
- Infrastructure, data and user security
- Dev/test environments
- Admin and end user training
- Application design and re-architecture for cloud and mobile
- Cognitive and AI integration
- Application delivery
- Database migration
