

## Data Sheet

### MetrixInsight for NetScaler

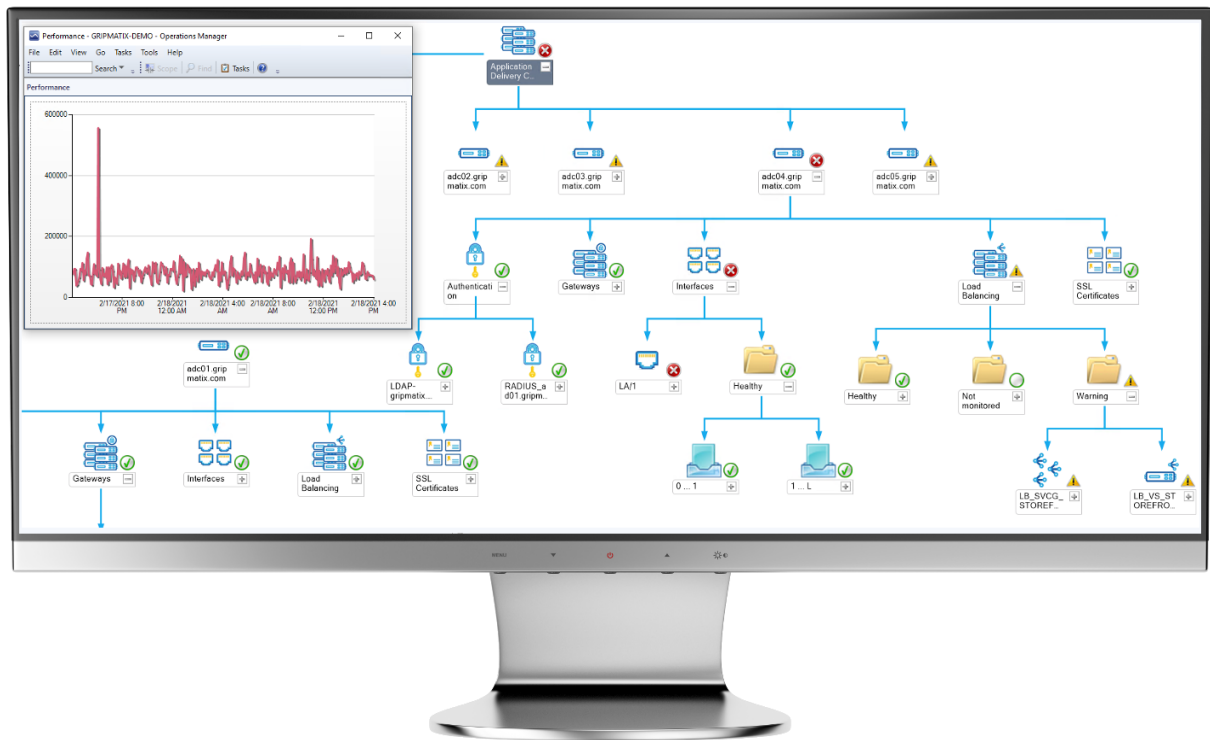

#### Overview

MetrixInsight for NetScaler is a SCOM Management Pack for monitoring NetScaler Application Delivery Controllers.

The solution dynamically discovers and visualizes the entire NetScaler appliance topology within a single pane of glass to monitor its Authentication, Gateway, Load Balancer, Certificate and Interface components and services.

### Authentication

LDAP and RADIUS authentication actions

### State Monitoring and Alerting

State Monitoring and Alerting

State Monitoring and Alerting for all NetScaler component and service layers to alarm you whenever a service gets, or may get disturbed, components fail, or resources are low

### Certificates

TLS/SSL certificates

### Performance and Utilization

Performance and Utilization

Performance and Utilization data collection for dozens of metrics giving insight into the utilization and performance of the NetScaler appliance

### Gateways

Citrix Gateway Virtual Servers

### Integration

Integration Feature

Integrates with MetrixInsight for Citrix VAD/DaaS to get even richer topology views

### Load Balancing

Load Balancing Virtual Servers, Service and Service Groups

Squared Up Dashboard Pack

Integrates with Squared Up by using our free available community Dashboard Pack for MetrixInsight for NetScaler

### Interfaces

Interfaces

### Product Updates

Regular product updates with new features and improvements

### Presentation

Alert views, State views

Performance views

### E-mail support

Response time within 24 hours

Topology views

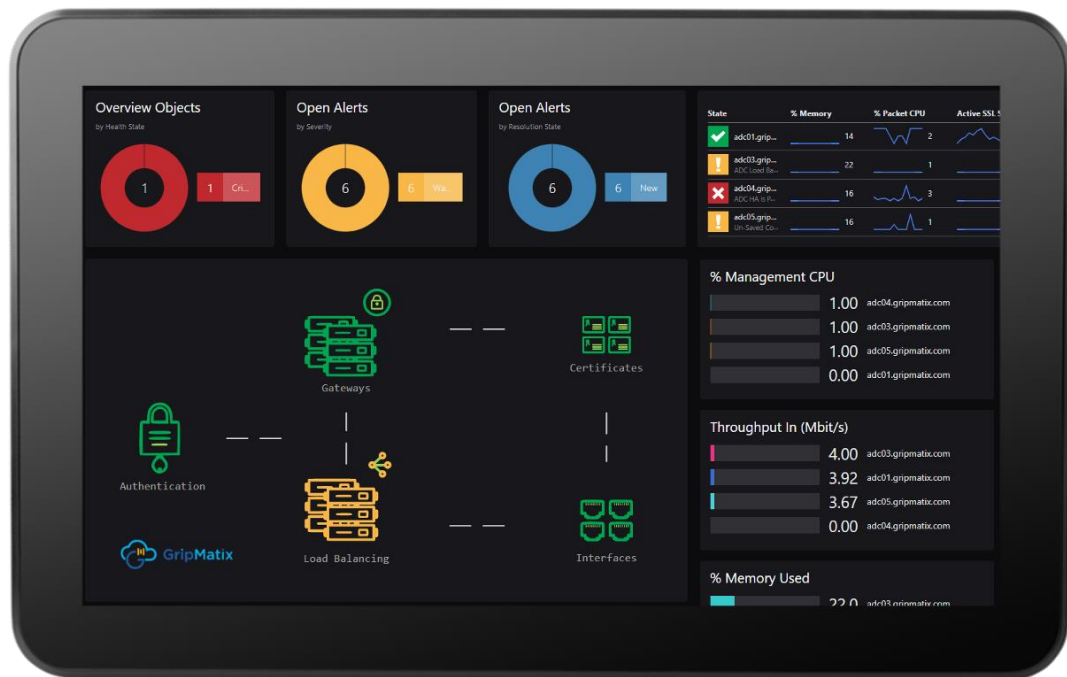

Single-Pane-of-Glass Dashboards

### Product knowledge

Product Knowledge for Monitors and Alerts to quickly solve problems

## Squared Up Dashboard Pack

We have created a SquaredUp Community Dashboard Pack with more than 20 drill-down views to complement our MetrixInsight for NetScaler SCOM Management Pack. SquaredUp is a HTML5, extremely fast, multi-platform web console. This dashboard pack along with our SCOM Management Pack is able to give you the full NetScaler topology monitoring experience.

More information about this dashboard and how to get it, you can find [here](#).

### Supported software versions

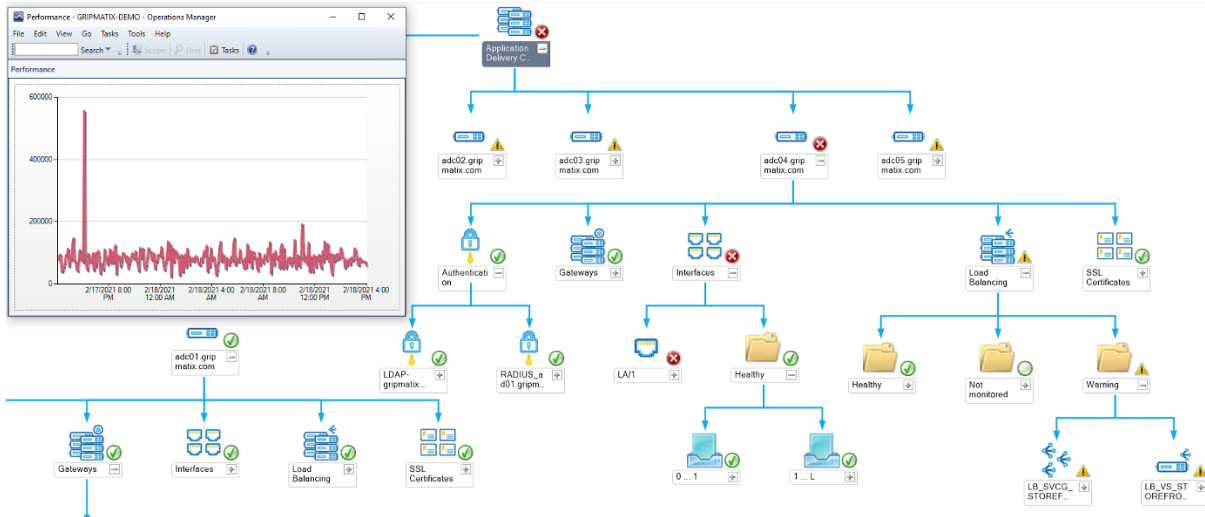

MetrixInsight for NetScaler supports the following releases which includes all the latest versions:

- Citrix ADC/NetScaler MPX/VPX instances running 11.1 or higher

## Impression

An impression of our management pack in action.

## Licensing

Our products are licensed on a **volume based annual subscription license** model. This means that there is no big upfront investment for you, but you pay yearly as long as you want to use our products. We believe this kind of licensing model fits perfect in the Cloud era we live in today.

Our licenses are bound to one or more NetScaler appliances within a single SCOM Management Group environment.

## Microsoft Partner Solutions and Citrix Ready

We continuously work hard to get the highest quality for our solutions. Therefore, we are delighted MetrixInsight for NetScaler has been certified as [Citrix Ready](#) in the Citrix Ready Marketplace.
